**QUESTION 1**

Your manager, although not a network expert, knows the network group has informed her that your current company infrastructure is nearly out of VLANs for deploying additional networks. You are already growing to the point where this is going to soon become a serious issue. How would you explain to your manager how vCloud Networking and Security (vCNS) solves this problem?

- A. vCNS uses specialized network hardware to extend the network capabilities in vCenter
- B. vCNS extends vCenter Standard Switches to support VXLANs
- C. vCNS uses virtual appliances to build software defined networks
- D. vCNS increases the maximum number of supported VLANs

Correct Answer: C

QUESTION 3

Your manager heard on a webinar that vCenter Operations Manager has the ability to create custom groups so that he could better align performance and management decisions with the business. Which options represent custom groups you could create for your manager? (Choose two.)

- A. vCenter Datacenter
- B. Line of business
- C. Application

D. DRS/HA Cluster

Correct Answer: BC

QUESTION 4

You have been assigned as a mentor to a new hire within the virtualization group who has asked to you to explain what Site Recovery Manager does. You tell her that after a disaster or in anticipation of a disaster-type event, Site Recovery Manager:

- A. Before the disaster event, SRM replicates specified VMs at the recovery site and powers them on, so that it can switch control to the recovery site VMs after a disaster
- B. Leverages vSphere Replication to move VMs offsite
- C. Automatically reboots specified ESXi servers and VMs in place at your local datacenter as the earliest opportunity
- D. Moves your VMs to a public cloud provided by an approved third party provider

Correct Answer: B

QUESTION 5

Before you begin the rollout of your private cloud, the technical project leader wants to ensure you have the vSphere components required by vCloud Director in place first. Which two vSphere components are required by vCloud? (Choose two.)

- A. ESXi hypervisor
- B. vCenter Server
- C. vSphere Data Protection
- D. vCenter Orchestrator

Correct Answer: AB
