QUESTION 1

You manage multiple projects which share a notification scheme.

For the Issue Moved event, you want to notify only a particular individual.

That individual needs to be selected by other users.

Which value should be used for the Issue Moved event?

A. Single User

B. Developers project role

C. User Custom Field Value

D. Current User

E. Component Lead

F. Single Email Address

Correct Answer: A

For the issue move event, it will always notify the project which the issue is been moved to if you configure a single user in the notification,
