**QUESTION 1**

A Campaign developer is setting up a new API to query the recipient table from an external application. The developer is setting up an Operator for use specifically with the new API. In doing so, the developer selects the option "forbid access from the rich client"

What impact does this have on the API?

- A. The Operator will authenticate via external accounts for API access.
- B. The Operator has access via the API.
- C. The Operator can issue API calls from within the rich client.
- D. The Operator is denied access via the API.

Correct Answer: D
