### QUESTION 1

The reaction between sodium, metal, and water can be classified as \_\_\_\_\_.

- A. decomposition
- B. synthesis
- C. single replacement
- D. double replacement

Correct Answer: C

Explanation:

$2\text{Na} + 2\text{H}_2\text{O} \rightarrow 2\text{NaOH} + \text{H}_2$  is a single replacement reaction where one sodium atom replaces just one of the hydrogen atoms in each water molecule.

---

### QUESTION 2

What is the scientific study of human culture called?

- A. Sociology
- B. Archaeology
- C. Anthropology
- D. Scientology

Correct Answer: C

Explanation:

The scientific study of human culture is called anthropology, and includes study of the origin and behavior of humankind as well as its physical, social, and cultural development.

Sociology is the study of human society, including patterns of social relations, social interaction, and culture.

Archaeology is the study of past human life and culture by the recovery or discovery and examination of material evidence such as graves, buildings, tools, weapons, and other artifacts.

---
