QUESTION 1

In Wiltshire, England, there is a fascinating site. Near Salisbury stands a creation called Stonehenge. No one is sure of the meaning of the monument that has stood there since ancient times. Some people theorize that it was a temple for people who worshiped the sun. Others have dubbed it a center for healing, a burial site, or even a very large calendar. Many questions remain, such as how in the world the tremendous stones were moved and arranged by primitive people who had only the most basic of tools. In spite of all these questions, Stonehenge remains an impressive site.

Which of these titles would best summarize the point of the above passage?

- A. "An Unforgettable Mystery"
- B. "Stonehenge in England"
- C. "Visiting Wiltshire, England"
- D. "Visiting Stonehenge"

Correct Answer: A

QUESTION 2

Although carjacking has become more common in the past 10 years, there are several preventative measures that drivers can take. The first way to prevent carjacking is to never walk alone to your car at night. Another means of prevention is always driving with the windows rolled up and the doors locked. Also, driving on well-lit and often traveled roads is another preventative measure that drivers can take to ensure their safety from carjacking.

The author probably believes that _____.

- A. carjacking never happens during the day
- B. carjacking can often be avoided by employing simple preventive measures
- C. it is almost impossible to avoid carjacking
- D. carjacking only happen at night.

Correct Answer: B

QUESTION 3

In 1973, when the OPEC nations embargoed oil exports to the United States, their action signaled an unprecedented rise in oil prices. In fact, crude oil prices quadrupled, sending oil-dependent countries into a recession.

One of the results of the oil embargo was that _____.

- A. the United States embargoed oil exports of OPEC nations

- B. the price of crude oil declined
- C. the price of crude oil doubled
- D. oil-dependent countries experienced a recession

Correct Answer: D

Explanation:

The embargo caused the price of crude oil to quadruple.

This increase, in turn, caused oil-dependent countries to experience a recession.

Answers "the United States embargoed oil exports of OPEC nations", "the price of crude oil declined" and "the price of crude oil doubled" are all incorrect details.

QUESTION 4

Epidemiology is the study of what causes diseases, injuries, and other physiological damage to humans and why such problems occur. Epidemiologists examine where and when disease outbreaks occur. By using statistics and other scientific methods, epidemiologists determine what factors affect the frequency and severity of disease patterns. The primary goal of epidemiology is to control or prevent outbreaks of disease – other goals are subordinate.

What would be the best title for this passage?

- A. Epidemiology: The Study of Disease Patterns.
- B. Goals for the Future of Epidemiology.
- C. Using Statistical Methods in Epidemiology.
- D. Employment Outlook for Epidemiologists.

Correct Answer: A

Explanation:

The main point of the passage is to define epidemiology.

Choices "Goals for the Future of Epidemiology," "Using Statistical Methods in Epidemiology," and "Employment Outlook for Epidemiologists" aren't the main points of the passage.

QUESTION 5

After a series of well-publicized failures by various inventors, Orville and Wilbur Wright succeeded in flying and controlling a heavier than-air craft on December 17, 1903. The War Department, stung by its investment in a failed effort by Samuel Langley and compounded by the Wright's own secretiveness, initially rejected the brothers' overtures toward the government to buy the aircraft. Prevailing sentiments held that the immediate future still belonged to the balloon. In August 1908, the two brothers delivered the first Army aircraft to the U.S. Government. That the U.S. government managed to purchase an airplane was a minor miracle. For more than four years after the Wright brothers'

successful flight at Kitty Hawk, North Carolina, the government refused to accept the fact that man had flown in a heavier than air machine.

Which of the following statements is not supported by the above passage?

- A. The U.S. Government felt that balloons were more practical than airplanes.
- B. The Wright Brother's own secretiveness contributed to their problems in getting the government interested in their aircraft.
- C. The historic flight took place on the East Coast.
- D. It took more than six years for the Wright Brothers to interest the U.S. Government in their airplane.

Correct Answer: D

Explanation:

According to the passage it took over four years for the Government to believe that anyone had flown a heavier-than-air craft.

The historic flight was in December 1903, and the Wright Brothers delivered the first aircraft to the government in August 1908, 4 1/2 years later.

All of the other statements are supported by the passage.
