QUESTION 1

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are planning the deployment of DNS to a new network.

You have three internal DNS servers as shown in the following table.

Name	Location	IP address	Local DNS zone
Server1	Montreal	10.0.1.10	contoso.local
Server2	Toronto	10.0.2.10	east.contoso.local
Server3	Seattle	10.0.3.10	west.contoso.local

The contoso.local zone contains zone delegations for east.contoso.local and west.contoso.local. All the DNS servers use root hints. You need to ensure that all the DNS servers can resolve the names of all the internal namespaces and internet hosts.

Solution: On Server2 and Server3, you configure a conditional forwarder for contoso.local. Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

QUESTION 2

You have an Azure subscription that contains the following resources.

1.
An Azure Log Analytics workspace
2.
An Azure Automation account
3.
Azure Arc

You have an on-premises server named Server1 that is onboarded to Azure Arc.

You need to manage Microsoft updates on Server1 by using Azure Arc.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Add Microsoft Sentinel to the Log Analytics workspace.
- B. On Server1, install the Azure Monitor agent.
- C. From the Automation account, enable Update Management for Server1.
- D. From the Virtual machines data source of the Log Analytics workspace, connect Server1.

Correct Answer: BC

QUESTION 3

HOTSPOT

You plan to deploy an Azure virtual machine that will run Windows Server.

You need to ensure that an Azure Active Directory (Azure AD) user named user1@contoso.com can connect to the virtual machine by using the Azure Serial Console.

What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Configure on the Azure virtual machine:

	▼
Boot diagnostics with a custom storage account	
Operating system guest diagnostics	
A system-assigned managed identity	

Assign the following role to User1:

	▼
Virtual Machine Contributor	
Virtual Machine Administrator Login	
Virtual Machine User Login	

Correct Answer:

Answer Area

Configure on the Azure virtual machine:

	▼
Boot diagnostics with a custom storage account	
Operating system guest diagnostics	
A system-assigned managed identity	

Assign the following role to User1:

	▼
Virtual Machine Contributor	
Virtual Machine Administrator Login	
Virtual Machine User Login

QUESTION 4

Your network contains an on-premises Active Directory Domain Services (AD DS) domain named contoso.com. The domain contains three servers that run Windows Server and have the Hyper-V server role installed. Each server has a

Switch Embedded Teaming (SET) team.

You need to verify that Remote Direct Memory Access (RDMA) and all the required Windows Server settings are configured properly on each server to support an Azure Stack HCI cluster.

What should you use?

- A. Server Manager.
- B. The validate-DCB cmdlet.
- C. The Get-NetAdaptor cmdlet.
- D. Failover Cluster Manager.

Correct Answer: B

QUESTION 5

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You are planning the deployment of DNS to a new network.

You have three internal DNS servers as shown in the following table.

Name	Location	IP address	Local DNS zone
Server1	Montreal	10.0.1.10	contoso.local
Server2	Toronto	10.0.2.10	east.contoso.local
Server3	Seattle	10.0.3.10	west.contoso.local

The contoso.local zone contains zone delegations for east.contoso.local and west.contoso.local. All the DNS servers use root hints.

You need to ensure that all the DNS servers can resolve the names of all the internal namespaces and internet hosts.

Solution: You configure Server2 and Server3 to forward DNS requests to 10.0.1.10.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B
