QUESTION 1

When developing a task analysis, a behavior analyst would first:

- A. assess the mastery level of the individual.
- B. conduct a functional assessment of the target skills.
- C. determine the necessary component steps.
- D. observe the individual to collect baseline data.

Correct Answer: C

QUESTION 2

Alternative appropriate behaviors that serve the same function for an individual:

- A. Always involve skills the individual already possesses
- B. Produces the same reinforcer for the individual
- C. Have the same topography as the problem behavior
- D. Always requires the same amount of response effort as the problem behavior

Correct Answer: B

QUESTION 3

A behavior analyst is adhering to which underlying assumption of behavior analysis when she conducts several tests of her treatment before she writes it in a formal behavior program?

- A. Determinism
- B. Law of parsimony
- C. Empiricism
- D. None of the above

Correct Answer: C

QUESTION 4

All of the following are appropriate methods for promoting maintenance and generalization of newly trained behaviors EXCEPT:

- A. gradually adding stimuli from the natural environment into the training setting.

- B. gradually altering the training antecedents to match naturally occurring ones.
- C. training others to reinforce the behavior in the natural setting.
- D. varying cues in the natural environment to match those in the training setting.

Correct Answer: D

QUESTION 5

As part of evaluating procedural integrity on a school based program, it is important for the behavior analyst to assess the quality of data collected by a teacher.

The BEST method is for the behavior analyst to?

- A. take data on student performance simultaneously with the teacher.
- B. compare student's self-graphed data to data collected by the teacher.
- C. compare data collected at the same time by the teacher and another teacher.
- D. compare her/his observation of a student's performance with data collected by the teacher from an earlier training session with the student.

Correct Answer: A
