QUESTION 1

Which statement is true regarding the inclusion of Control Number in a Data Integrator template?

A. It should always be included.

B. It should only be used to update existing records.

C. It prevents the import process from updating records.

D. It is necessary to guarantee the creation of unique records.

Correct Answer: C

QUESTION 2

Which statement is true regarding an onChange event?

A. It cannot pop up another form.

B. It cannot pop up a query result.

C. It cannot trigger a state family action.

D. It cannot create a permanent association.

Correct Answer: C

QUESTION 3

When a retired workflow is added to an Object Migration package, what is the expected result when importing it to another environment?

A. It will be skipped on import.

B. It will be removed on upload.

C. It will be imported in a retired state.

D. It will be imported into whatever state the workflow exists in the target environment.

Correct Answer: C

QUESTION 4

What is a unique feature of the Admin Group security group in TRIRIGA?

A. The Admin Group is not visible in the TRIRIGA Security Manager by default and can only be accessed by using the System account.

B. Whenever a change is made to the Admin Group the permissions for all Modules are reset to Full Access and all business objects (BO) are reset to Inherit From Parent.

C. Permission settings for all Modules, BOs, Forms, Sections, and Actions in the Admin Group are defaulted to grant Full Access permissions and cannot be changed.

D. Members of the Admin Group are automatically allowed to access all kinds of records and most tools in the platform environment whether they have been granted explicit permission to do so or not.

Correct Answer: D

QUESTION 5

What happens when a related portal section is deleted from the Related Portal Section library?

A. It requires changes in the Security Manager.

B. It permanently deletes the section from the system.

C. It removes the section as an option for users of the particular portal.

D. It stays on the user\\'s portal until the next time the system is restarted.

Correct Answer: B
