QUESTION 1

A company is upgrading their IBM FileNet P8 environment to Content Platform Engine (CPE) V5.2.1 on the same system where the Content Engine was previously installed.

Which of the following steps is required to upgrade to CPE V5.2.1?

A. Upgrade to the latest version of the application server.

B. They must upgrade to Microsoft.NET Framework V4.5.2.

C. Logon as the same user who originally installed that software.

D. Stop the application server process before running the CPE V5.2.1 installer.

Correct Answer: D

QUESTION 2

The customer environment is highly available with two IBM FileNet Content Platform Engine (CPE) servers (node 1 and node 2) and Workplace XT. Both node 1 and node 2 are fronted by a hardware load balancer.

Which of the following steps BEST describes how to test the CPE\\'s high availability?

A. While nodes 1 and 2 are running, create a document via Workplace XT, verify document exists, shutdown node 1, check-out newly created document, bring node 1 back up, shutdown node 2, check-in the document with new content and bring node 2 back up.

B. While node is running, create a document via Workplace XT, verify document exists, shutdown node 1, start node 2, check-out newly created document, bring node 1 back up, shutdown node 2, check-in the document with new content and bring node 2 back up.

C. While nodes 1 and 2 are running, disable the hardware load balancer, create a document via Workplace XT, verify document exists, shutdown node 1, check-out newly created document, bring node 1 back up, shutdown node 2, check-in the document with new content and bring node 2 back up.

D. While nodes 1 and 2 are running, create a document via Workplace XT, verify document exists, shutdown node 1, check-out newly created document, disable the hardware load balancer, bring node 1 back up, shutdown node 2, check-in the document with new content, bring node 2 back up and enable hardware load balancer.

Correct Answer: D

QUESTION 3

A large government agency will be upgrading and migrating from IBM FileNet P8 V5.1x to P8 V5.2.1 with a Microsoft SQL database. P8 V5.2.1 will be installed in a new environment.

Which of the following operating system accounts will need to be created in the new P8 V5.2.1 environment?

A. The Content Platform Engine installer account (cpe_install_user), Content Platform Engine operating system user (cpe_os_user) and the Configuration Manager user (config_mgr_user).

![Pass2Lead](https://Pass2Lead.com)
B. The Content Platform Engine application server installation administrator (cpe_appserver_install_user), Content Platform Engine installer account (cpe_install_user) and the Configuration Manager user (config_mgr_user).

C. The Content Platform Engine application server installation administrator (cpe_appserver_install_user), Content Platform Engine installer account (cpe_install_user), Content Platform Engine operating system user (cpe_os_user) and the Configuration Manager user (config_mgr_user).

D. The Content Platform Engine application server installation administrator (cpe_appserver_install_user), Content Platform Engine installer account (cpe_install_user), Content Platform Engine operating system user (cpe_os_user), Database User account (p8_db_user) and the Configuration Manager user (config_mgr_user).

Correct Answer: C

QUESTION 4

A FileNet system administrator is configuring a new Fixed Storage Device for their IBM FileNet P8 Domain. What is the order of steps to create storage related items needed to complete this task?

A. Fixed Content Device, Staging Area, Storage Area.

B. Storage Area, Staging Area, Fixed Storage Device.

C. Fixed Content Device, Storage Area, Replication Group.

D. Fixed Content Device, Replication Group, Working Area.

Correct Answer: C

QUESTION 5

An insurance company has finished configuring a new IBM FileNet P8 Content Manager system and needs to validate the object store and the storage area created are functional.

Which of the following tests would indicate a success?

A. Log onto the Workplace XT, manually launch a subscription workflow.

B. Log onto the FileNet Enterprise Manager and create a file storage area.

C. Log onto the Administration Console for Content Engine and initialize a region.

D. Log onto the Administration Console for Content Engine and add a document to the file storage area.

Correct Answer: B
