QUESTION 1

What is one of the purposes of Tomcat in the IBM Cognos BI environment?

A. Acts as a Java servlet container for the report and batch report services.

B. Monitors the dispatcher and all user requests are lost upon failure.

C. Monitors the IBM Cognos BI service and restarts the service upon failure.

D. Acts as a Java servlet container for the presentation service.

Correct Answer: A

QUESTION 2

Which of the following is true regarding the IBM Cognos BI gateway?

A. The gateway can be configured to send requests directly to the Content Manager.

B. For failover, the gateway can be configured to know the location of multiple dispatchers.

C. When more than one dispatcher is available, the gateway can automatically balance the load of requests by sending them to any dispatcher.

D. If the gateway is installed on a machinethat is separate from where other IBM Cognos BI components are installed, the services for the gateway must be started first.

Correct Answer: B

QUESTION 3

An administrator wants to show the folder hierarchy of IBM Cognos Connection in a portlet. Which portlet must the administrator use?

A. IBM Cognos Viewer

B. IBM Cognos Search

C. IBM Cognos Navigator

D. IBM Cognos Extended Applications

Correct Answer: C

QUESTION 4

Under what circumstances would full logging level be most appropriately used?

A. Whenever users cannot access the data.

B. Whenever detailed troubleshooting is required.

C. Whenever more than one dispatcher has been configured.

D. Whenever the default configuration for logging has been changed.

Correct Answer: B

QUESTION 5

An administrator creates a shortcut that points to an invoice report. What happens if the invoice report is renamed?

A. The shortcut contains the original name and can be used to view the latest output before the report was renamed.

B. The shortcut contains the original name and no longer works because the link to the report is broken.

C. IBM Cognos Connection automatically updates the report name in the shortcut, and the shortcut remains fully functional.

D. IBM Cognos Connection automatically deletes the shortcut.

Correct Answer: B
