QUESTION 2

Multiple users are complaining about being denied access to resources they believe they are entitled to see. The IBM Security Access Manager (ISAM) V9.0 deployment professional needs to understand and troubleshoot the various access control constructs in the ISAM protected object space. The deployment professional must also understand the order of evaluation of the three major access control constructs available in the Policy Administration tool.

That is the correct order of evaluation for these constructs?

A. ACL->AuthzRule->POP

B. POP->AuthzRule->ACL

C. ACL->POP->AuthzRule

D. AuthzRule->ACL->POP

Correct Answer: C
