QUESTION 1

Which task or process might be included in a server administrative schedule?

A. Shred disk

B. Promote disk

C. Ingest inventory

D. Expire inventory

Correct Answer: D

QUESTION 2

The IBM Tivoli Storage Manager V7.1 backup/restore client is supported on which three operating systems?

A. AIX

B. IRIX

C. zOS

D. Linux

E. iSeries

F. Windows

Correct Answer: ADF

QUESTION 3

In the IBM Tivoli Storage Manager (TSM) Operations Center V7.1, what does the interval parameter of the set status at risk interval specify?

A. It sets the amount of time before the TSM server contacts the client for a backup.

B. It sets the amount of time before a scheduled backup can be run from the Operations Center.

C. It sets the number of days elapsed between the client and the server activity before the client is removed from reporting.

D. It sets the amount of time since a successful client backup has completed before the Operations Center considers the client at risk.

Correct Answer: D

![Pass2Lead](https://Pass2Lead.com)
Explanation: What does "At Risk" mean in the Operations Center? The Operations Center considers recent activity for a client and determines whether the client is at risk of being unprotected. The "at risk" designation primarily indicates that an administrator should investigate a client issue to determine whether or not it creates a significant risk (based on the business goals, data protection strategy, and such).

The "at risk" processing considers clients that are automated using TSM scheduling.
QUESTION 4

Which two tasks belong to the daily server maintenance procedure?

A. register node

B. activate policy

C. expire inventory

D. back up database

E. identify duplicates

Correct Answer: CD

Explanation: Daily schedule of Tivoli Storage Manager operations The image shows the timeline for the daily schedule: Client backups run from approximately 10 PM to 6 AM. Storage pool backup runs from approximately 6 AM to 10 AM. Database backup and the creation of disaster recovery copies of the volume history and device configuration files runs from 10 AM to 12 PM. Migration runs from approximately 12 PM to 2 PM. Expiration runs from 2 PM to 4 PM. Reclamation runs from 4 PM to 8 PM. Disaster recovery preparations run from 8 PM to 10 PM.

QUESTION 5

An alert represents an error message that is issued by an IBM Tivoli Storage Manager server. What does this icon mean when shown at the alert?

A. Warning; Processing can continue, but problems might occur later.

B. Severe: Processing stops. The server will preempty the tasks and stop.

C. Critical: Processing cannot continue. The issue must be corrected immediately.

![Pass2Lead](https://Pass2Lead.com)
D. Info: Processing continues with an informational message, and no action is required.

Correct Answer: C

Explanation: * Example:

http://www-01.ibm.com/support/docview.wss?uid=swg21651428andaid=20

* The severity codes give an indication of the severity of the issue that generated the message. The

severity codes and their meanings are as follows:

E Error Processing cannot continue.

W Warning Processing can continue, but problems may occur later. I Information Processing continues.

User response is not necessary.
