- ⚙️ **800,000+** Satisfied Customers

#### QUESTION 1

How are user permissions set in Falcon?

- A. Permissions are assigned to a User Group and then users are assigned to that group, thereby inheriting those permissions
- B. Pre-defined permissions are assigned to sets called roles. Users can be assigned multiple roles based on job function and they assume a cumulative set of permissions based on those assignments
- C. An administrator selects individual granular permissions from the Falcon Permissions List during user creation
- D. Permissions are token-based. Users request access to a defined set of permissions and an administrator adds their token to the set of permissions

Correct Answer: B

---
