### QUESTION 1

What is a shippers certification?

- A. When the shipper packages hazardous materials, he or she certifies that the package has been prepared according to the rules
- B. A paper certification from the manufacturer given to the shipper
- C. A paper certification given to the manufacturer from the shipper
- D. A test for shippers that certifies that they are qualified to package hazardous materials

Correct Answer: A

---

### QUESTION 2

How should you check that you have sufficient emergency airflow to all trailers in a set of doubles or triples?

- A. Use the trailer hand brake to supply air. Go to the rear of the last trailer, open the service line valve and listen for air escaping.
- B. Move the trailers and apply the emergency brakes.
- C. Push in the red trailer air supply knob, open the emergency line shut-off valve at the rear of the last trailer and listen for air escaping.
- D. Fully charge the air system, activate the emergency brakes and look for a 15 psi air pressure reduction

Correct Answer: C

The correct answer is: Push in the red trailer air supply knob, open the emergency line shut-off valve at the rear of the last trailer and listen for air escaping. To check the service line air flow, you use the trailer hand brake to supply air to the service lines. Go to the rear of the last trailer, open the service line valve and listen for air escaping.

---

### QUESTION 3

What psi level is the safety relief valve set to open at?

- A. 150 psi
- B. 125 psi
- C. 60 psi
- D. 100 psi

Correct Answer: A

The correct answer is: 150 psi. A safety relief valve is installed in the first tank that the air compressor pumps air into. A safety valve protects the tank and system from too much pressure by opening up at 150 psi.

---

#### QUESTION 4

Which of the following is NOT a basic step to be taken at a crash scene?

- A. Notify authorities
- B. Care for the injured
- C. Gather the contact information of all the drivers involved
- D. Protect the area

Correct Answer: C

The correct answer is: Gather the contact information of all the drivers involved. If you are involved in a crash and are not seriously hurt, your first priority is to take steps to prevent further damage and injury. These steps include protecting the area, notifying authorities, and caring for the injured. Gathering contact information is not a priority.

---

#### QUESTION 5

The average person requires how many hours of sleep per 24 hour period?

- A. 7 or 8
- B. 8 or 9
- C. 6 or 7
- D. 5 or 6

Correct Answer: A

The correct answer is: 7 or 8. The average person requires 7 or 8 hours of sleep per 24 hour period. If your body does not get the sleep that it requires, you may become very drowsy and fall asleep without even knowing it.
