QUESTION 1

Why have MOST European countries developed specific legislation that permits police and security services to monitor communications traffic for specific purposes, such as the detection of crime?

- A. Under the European Convention of Human Rights, the interception of telecommunications represents an interference with the right to privacy.
- B. GDPR overrides all previous legislation on information handling, so new laws were needed to ensure authorities did not inadvertently break the law.
- C. Police could previously intercept without lawful authority any communications in the course of transmission through a public post or telecoms system.
- D. Surveillance of a conversation or an online message by law enforcement agents was previously illegal due to the 1950 version of the Human Rights Convention.

Correct Answer: C

QUESTION 2
