QUESTION 1

Which of the following cannot be executed in BOTH the Analyst and the Developer Tool?

- A. A rule created in the Analyst Tool
- B. A mapplet created in the Developer Tool and validated as a rule
- C. A mapplet created in the Developer Tool and validated as a mapplet
- D. A reusable rule created in the Analyst Tool

Correct Answer: B

QUESTION 2

What is the best approach to implementing Address Validation in version 9.1?

- A. Run the addresses into the AV transformation without modification.
- B. Take an iterative approach and review AV output. Determine why addresses did not validate and attempt to resolve the issue prior to running them in the AV transformation.
- C. Canada Post defines the SERP certification standard for software applications that validate Canadian addresses.
- D. Remove all punctuation before sending the address to the AV transformation.

Correct Answer: C

QUESTION 3

What is the primary purpose of grouping data?

- A. standardize data in preparation for matching
- B. normalize data in preparation for matching
- C. Improve match performance
- D. improve match results

Correct Answer: C

QUESTION 4

Should data be standardized before it reaches the Address Validator?

- A. Yes, street and directional abbreviations should always be expanded to their unabbreviated form.

- B. No, any change may cause problems to the AV transformation.
- C. Yes, if after review, specific problems have been identified that are causing address to not validate that otherwise would.
- D. Yes, they should all be upper case.

Correct Answer: A

QUESTION 5

What happens to the records when corrections are made and a status of Accept is assigned?

- A. The corrections are committed to the Staging DB and an UPDATED_STATUS of Accepted is assigned to the record
- B. The corrections are committed to the Staging DB and record is automatically pushed into another DB
- C. Records are corrected and are sent to an Accepted DB table
- D. Records are accepted and are pushed out to Target/Production DB

Correct Answer: B
