QUESTION 1

A global Business Process Management (BPM) organization based in India, headquartered in the US is in receipt of a Request for Proposal (RFP) for a potential deal. The privacy function in this company has just got formulated.

Which of the following stage would be most effective for sales team to involve privacy function?

- A. RFP response stage
- B. Post-RFP stage once the BPM organization is selected as one of the potential service providers
- C. During service provider evaluation stage based on RFP response, and face-to-face reviews of the service provider
- D. During contract negotiation stage

Correct Answer: D

QUESTION 2

"Any company joining the EU-US Privacy Shield has to self-certify to the US Department of Commerce and make a public commitment to the same".

Is this statement True or False?

- A. True
- B. False

Correct Answer: A

QUESTION 3

In June 2018, which US State passed a citizen proposed Consumer Privacy Act?

- A. California
- B. Texas
- C. Iowa
- D. Florida

Correct Answer: A

QUESTION 4

ABC company is a large US based IT Company that provides a range of services to its clients. The company had developed a cloud based application providing end-to-end services for the medical industry. The application had three modules for: -Patients -Hospitals and Doctors -Insurance and Pharmaceutical companies

Each of the modules was designed to be integrated with others depending on user's choice. For example, a patient could choose to share his/her medical history with his/her doctor (for medical advice) as well as insurance companies (for claims).

The application requires that all registered users of the application read and acknowledge the privacy policy. Additionally, users are required to identify the purpose for which they are providing any personal data in any of the modules. For example, a patient providing his/her medical history and current symptoms can select 'Medical Advice' as the purpose for the data being provided.

Few months ago, company launched new services in the applications namely, Business Analytics, Group

Consultations, Insurance Policy purchase, and Medical Trials Management. The new services used all existing data collected over the years from users. The Company's clients/users are based only in three geographical locations - United States, European Union and India. Additionally, to facilitate better performance of its application, the company established one datacenter each in US, Germany and India for its operations. Each of the datacenter provides the following: -US Datacenter - Storage of data for US based users only -Germany Datacenter - Storage of data for EU based users only -India Datacenter - Storage of data for India based users and alternate site for US and Germany Datacenters (used as part of global load balancing) -Services of a cloud service provider are leveraged in US as a Disaster Recovery (DR) site for Indian Datacenter

Recently, the company's Application Support Desk has started receiving user complaints related to unsolicited communications.

These complaints have warranted a review of company's privacy policies as well as practices.

What all will be the directly or indirectly applicable laws on the data stored on US cloud service provider?

- i. HIPAA
- ii. German Data Protection Act
- iii. IT(Amendments) Act, 2008 Sec 43A
- iv.

None of the above as data protection laws are not applicable on Cloud Service Providers

- A.
- iv
- B.
- i and ii
- C.
- i, ii and iii
- D.
- ii and iii

Correct Answer: D

QUESTION 5

Technological advancement is inevitable and the speed of change is exponential. In such a scenario, which of the following statement is not true for defining the relationship between privacy protection and technology advancement, both at individual and corporate levels?

- A. Maintaining privacy is difficult with emerging platforms and services
- B. Maintaining privacy is difficult, as exercising complete control over personal information in online environment is an uphill task
