QUESTION 5

DRAG DROP

A customer wants to map an existing volume to a new server connected through iSCSI. What is the correct sequence of steps to complete this task?

Select and Place:

Configure the iSCSI Target IP address in the iSCSI Initiator	STEP 1
Create the server object	STEP 2
Locate the storage array Control Port IP addresses	STEP 3
Map the volume to the server	STEP 4

Correct Answer:

	Locate the storage array Control Port IP addresses
	Configure the iSCSI Target IP address in the iSCSI Initiator
	Map the volume to the server
	Create the server object
