Correct Answer: BC

QUESTION 4

Universal Containers wants to understand all of the configuration changes that have been made over the

![Pass2Lead logo](https://Pass2Lead.com)
last six months.

What tool should an Administrator use to gather this information?

A. Setup Audit Trail

B. Debug Log

C. Custom Report Type

D. Network Access Settings

Correct Answer: A

QUESTION 5

At Universal Containers, the sharing model is set to private. Sales operations, legal, and accounting users all have the Standard User profile. A person from each department will assist the Account Executive in the sales process. The Sales operations and Accounting Reps need read/write access and legal needs read-only access to the Opportunity object.

What should the Administrator do to ensure that each person has the correct access?

A. Create a criteria-based opportunity sharing rule for each user.

B. Assign a custom profile to the users that need access opportunities.

C. Add the users to the opportunity team.

D. Manually share the account record with each other.

Correct Answer: B
