

# H13-622<sup>Q&As</sup>

HCNP-Storage-CBDS (Constructing Big Data Storage)

## Pass Huawei H13-622 Exam with 100% Guarantee

Free Download Real Questions & Answers **PDF** and **VCE** file from:

<https://www.pass2lead.com/h13-622.html>

100% Passing Guarantee  
100% Money Back Assurance

Following Questions and Answers are all new published by Huawei  
Official Exam Center

-  **Instant Download** After Purchase
-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

**QUESTION 1**

Which types of nodes are supported by Huawei OceanStor 9000? (Choose all that apply.)

- A. P12
- B. P25
- C. P36
- D. C36
- E. C72

Correct Answer: ABCDE

---

**QUESTION 2**

Which of the following statements about Huawei 9000 big data solutions is incorrect?

- A. Huawei big data storage products support InfiniBand/IOGE/GE networking modes.
- B. Huawei big data storage products employ scale-out architecture.
- C. Huawei big data storage products are based on the MPP DB.
- D. Huawei big data storage products support dynamic storage tiering (DST).

Correct Answer: C

---

**QUESTION 3**

The CAP principle that a distributed database complies with involves three elements: consistency, availability, and partition tolerance.

Which of the following statements about the CAP principle that a distributed database complies with are correct? (Select three)

- A. In a distributed database, a maximum of two elements can be implemented concurrently.
- B. Partition tolerance is the basic requirement for a distributed database.
- C. For most distributed databases oriented to web applications, the CPA design typically sacrifices consistency for high availability.
- D. Partition tolerance is the basic requirement for a traditional relational database.

Correct Answer: ABC

---

**QUESTION 4**

Which advantages does Huawei OceanStor 9000 cluster NAS technology have over traditional NAS storage systems? (Choose all that apply.)

- A. Rapid service switchover, preventing the failure of a single node in a cluster from affecting services.
- B. Multi-node clustering, load balancing, and global cache, providing excellent performance.
- C. Heterogeneous SAN storage can be connected to an engine cluster.
- D. Scalable scale-out engine architecture.

Correct Answer: ABD

---

**QUESTION 5**

Which of the following concepts are used in object service (compatible with Amazon S3 APIs)? (Choose all that apply.)

- A. Bucket
- B. Object
- C. Account
- D. User

Correct Answer: ABCD
