QUESTION 1

Which fabric benefit does Synergy have over BladeSystems?

- A. eliminates the need for Link Modules
- B. supports Fiber Channel over Ethernet
- C. eliminates the needfor a Top of Rack Switch
- D. provides redundant Top of Rack switches within one rack

Correct Answer: C

QUESTION 2

A solutions architect is designing an HPE ProLiant BladeSystem and HPE StoreVirtual storage solution for a customer, and needs to estimate power requirements.

Which HPE tool should the architect use?

- A. HPE Insight Management Sizer
- B. HPE OneView
- C. HPE Power Advisor
- D. HPE Power Discovery Services

Correct Answer: C

QUESTION 3

A customer plans to transition from rack mount servers to blade servers. The customer has selected Virtual Connect as the network interconnect module for the c7000, allowing it to take advantage of network virtualization. The customer needs an on-premise management strategy that can take advantage of the RESTful API for integration into its Chef development operations model.

Which protocol should the architect recommend to support and manage the proposed HPE BladeSystem solution?

- A. HPE Systems Insight Manager
- B. HPE OneView
- C. HPE Virtual Connect Enterprise Manager
- D. HPE Virtual Connect Manager

Correct Answer: B

QUESTION 4

An architect is using HPE Power Advisor to assist in architecting an HPE BladeSystem solution that contains HPE Flexfabric interconnect modules.

Which information about the solution can the tool provide? (Select two.)

- A. estimated power usage of the system
- B. bill of materials for the system
- C. mismatch between interconnect modules and network adapters
- D. UPS sizing based on defined run times
- E. SFP+ module power requirements

Correct Answer: AB

QUESTION 5

How does the HPE BladeSystem architecture meet the changing needs of data center customers?

- A. introduction of Active Health System monitor
- B. system management using HPE Virtual Connect modules
- C. enables customers to shift investment from maintenance to innovation
- D. consolidate deployment of firmware via HPE Agentless Management

Correct Answer: B
