QUESTION 1

You need an application to receive notifications when new server hardware is added to your managed environment or when the health status of physical resources changes, without having to continuously poll the appliance for status updates.

Which HPE OneView communication channel is an interface that uses asynchronous messages to notify subscribers of changes to managed resources?

- A. HPE OneView cmdlets
- B. State Change Message
- C. Bus O REST API
- D. Universal configuration management database

Correct Answer: B

QUESTION 2

How does HPE OneView empower a data-driven enterprise by helping to build analytic applications and services in order to obtain value from existing information?

- A. primarily provides virtual machine management
- B. is used in the deployment of the infrastructure
- C. integrates switch fault management and network monitoring
- D. provides virtually no downtime for multi node server clusters

Correct Answer: B

QUESTION 3

In which way is a software-defined data center (SDDC) different from a Cloud solution?

- A. An SDDC enables a select set of applications and workloads to be optimized and automated to run across an expandable pool of resources.
- B. An SDDC provides line of business (LOB) user control to select services from a marketplace and to use them directly.
- C. An SDDC is a business visible delivery model
- D. An SDDC takes programmatic triggers to initiate actions within the infrastructure.

Correct Answer: D

QUESTION 4

According to HPE in which way does HPE OneView enable transformation to a hybrid infrastructure?

- A. enables agile IT operations
- B. builds better mobile apps
- C. provides application layer control
- D. enhances security and governance control

Correct Answer: A

QUESTION 5

Your customer has an enclosure with a combination of ProLiant G7, Gen8, and Gen9 servers that are monitored by HPE OneView in a single enclosure. The customer needs to add their new ProLiant Gen9 servers to the enclosure.

Which constraint should you make the customer aware of before they add the Gen9 server?

- A. The Gen9 servers will be restricted to legacy BIOS mode only.
- B. The Gen9 servers are not supported in a mixed enclosure.
- C. The Gen9 servers can only be monitored, and not managed, in this enclosure.
- D. Gen9 server blades are not supported in HPE OneView as managed only devices.

Correct Answer: C
