#### QUESTION 1

Why is compliance important for the reliability of the information?

- A. Compliance is another word for reliability. So, if a company indicates that it is compliant, it means that the information is managed properly.
- B. By meeting the legislative requirements and the regulations of both the government and internal management, an organization shows that it manages its information in a sound manner.
- C. When an organization employs a standard such as the ISO/IEC 27002 and uses it everywhere, it is compliant and therefore it guarantees the reliability of its information.
- D. When an organization is compliant, it meets the requirements of privacy legislation and, in doing so, protects the reliability of its information.

Correct Answer: B

---

#### QUESTION 2

Peter works at the company Midwest Insurance. His manager, Linda, asks him to send the terms and conditions for a life insurance policy to Rachel, a client. Who determines the value of the information in the insurance terms and conditions document?

- A. The recipient, Rachel
- B. The person who drafted the insurance terms and conditions
- C. The manager, Linda
- D. The sender, Peter

Correct Answer: A

---

#### QUESTION 3

Responsibilities for information security in projects should be defined and allocated to:

- A. the project manager
- B. specified roles defined in the used project management method of the organization
- C. the InfoSec officer
- D. the owner of the involved asset

Correct Answer: B

---

#### QUESTION 4

What sort of security does a Public Key Infrastructure (PKI) offer?

- A. It provides digital certificates that can be used to digitally sign documents. Such signatures irrefutably determine from whom a document was sent.
- B. Having a PKI shows customers that a web-based business is secure.
- C. By providing agreements, procedures and an organization structure, a PKI defines which person or which system belongs to which specific public key.
- D. A PKI ensures that backups of company data are made on a regular basis.

Correct Answer: D

---

#### QUESTION 5

In the context of contact with special interest groups, any information-sharing agreements should identify requirements for the protection of \_\_\_\_\_ information.

- A. Availability
- B. Confidential
- C. Authentic
- D. Authorization

Correct Answer: B
