**QUESTION 1**

Your customer calls you to say that a just completed server installation has little activity and (to paraphrase what was actually said) only some "random beeps." You are trying to encourage your customers in general to become more resourceful and professional in their outlook. So rather than just give the answer, you want to get this customer to go and find the answer. In which document would you recommend looking for the beep post-code/LED post-code descriptions?

A. The Quick start guide

B. The TPS

C. The User Guide

D. The Product Service Guide

E. The FAQ

Correct Answer: B

**QUESTION 2**

What is the maximum number of hard drives supported with the ESRT2 on the C600 family chipsets, provided the correct number of ports is available on the motherboard?

A. 4

B. 8

C. 32

D. 64

Correct Answer: B

**QUESTION 3**

Which of the following sequences of RAID levels list the MOST redundant level to the LEAST redundant level in regard to their ability to withstand disk failure? A)RAID 1 B)RAID 5 C)RAID 10 D)RAID 6 E)RAID 0
