QUESTION 1

Currently, all training offered by a company is delivered through classroom-based courses. The company recognizes that there is a need to offer a broader method of instruction. Such a change will enable company to return its market share and grow its customer base.

The proposed solution, driven by the IT department, will offer courses delivered over the web and on demand. This will include supported videos, games and quizzes. All courses will be accredited by examination bodies and sample exams will also be offered online. Student will be able to make online notes as needed and back these up. 10 guard against accident loss.

The following have been identified on to-be process models:

a) Watch Video b) Create quiz c) Accredite course. d) Undertake sample examination. e) Backup

Which of these would be considered as functional requirements relating to student use of the proposed IT system?

A. b, c and e.

B. a and d.

C. a, c and d.

D. b and e.

Correct Answer: B

QUESTION 2

No Exit Suppliers has decided to implement a Commercial Off the Shelf (COTS) inventory management solution to improve its stock (Inventory) control Before the solution is implemented, all current stock levels and stock locations will be migrated into a related database to ensure that the solution starts with accurate information. Once the system is implemented, all stock movements will be tracked via barcode scanning technology.

To ensure that the proposed solution is acceptable, which exceptional condition MUST be proved?

A. Stock levels cannot fall below the minimum stock reorder level.

B. Inaccuracies in the migrated stock level can be corrected.

C. Stock level is reduced when orders are dispatched.

D. Changes in stock level can be monitored on a daily basis.

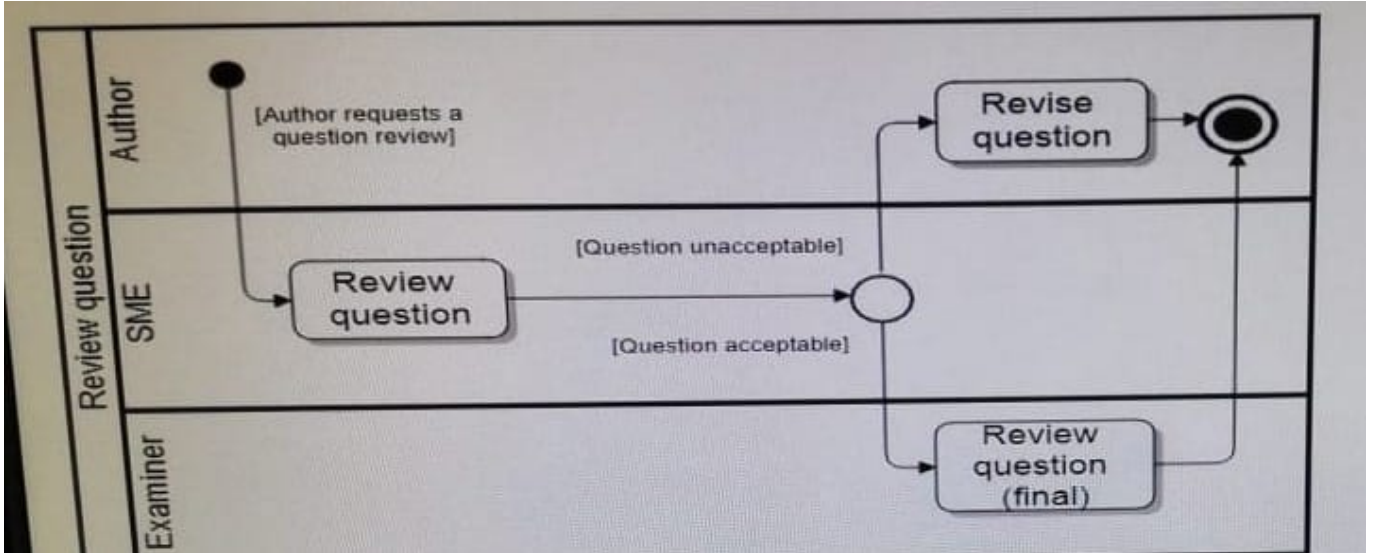

Correct Answer: B

QUESTION 3

An exam provider employs a number of professionals as authors authors to write exam question for industry-recognised

qualifications. An author who has written an exam question submits it for review to a subject matter expert (SME), who either confirms it is acceptable and passes it to the examiner for final review and sign-off, or responds to the author with commands regarding the revision required.
