QUESTION 1

HOTSPOT

You need to create the UserLicenses group. The solution must meet the security requirements.

Which group type and control method should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Group type:

	▼
Distribution list	
Office 365 group	
Security group	

Control method:

	▼
a conditional access policy	
a retention policy	
an access review	
an alert policy	

Correct Answer:

Answer Area

Group type:

	▼
Distribution list	
Office 365 group	
Security group	

Control method:

	▼
a conditional access policy	
a retention policy	
an access review	
an alert policy	

Fabrikam plans to create a group named UserLicenses that will manage the allocation of all Microsoft 365 bulk licenses.

The memberships of UserLicenses must be validated monthly. Unused user accounts must be removed from the group automatically.

The group needs to be a Security group.

Azure Active Directory (Azure AD) access reviews enable organizations to efficiently manage group memberships, access to enterprise applications, and role assignments. User's access can be reviewed on a regular basis to make sure only

the right people have continued access.

QUESTION 2

You have a Microsoft 365 tenant that contains Microsoft Exchange Online.

You plan to enable calendar sharing with a partner organization named adatum.com. The partner organization also has a Microsoft 365 tenant.

You need to ensure that the calendar of every user is available to the users in adatum.com immediately.

What should you do?

- A. From the Exchange admin center, create a sharing policy.
- B. From the Exchange admin center, create a new organization relationship.
- C. From the Microsoft 365 admin center, modify the Organization profile settings.
- D. From the Microsoft 365 admin center, configure external site sharing.

Correct Answer: B

You need to set up an organization relationship to share calendar information with an external business partner. Office 365 admins can set up an organization relationship with another Office 365 organization or with an Exchange on-premises organization.

Reference: <https://docs.microsoft.com/en-us/exchange/sharing/organization-relationships/create-an-organization-relationship>

QUESTION 3

You have recently created a Microsoft 365 subscription.

You have prepared an XML file for the upcoming Microsoft Office 365 ProPlus deployment.

The Channel attribute for the OfficeClientEdition attribute is set to Broad, while the Channel attribute for the Updates element is set to Targeted.

Which of the following the following are the months of the year that security updates will be installed?

- A. January and July.
- B. March and September
- C. June and December
- D. April and October

Correct Answer: B

References: <https://docs.microsoft.com/en-us/deployoffice/configuration-options-for-the-office-2016-deployment-tool#updates-element> <https://docs.microsoft.com/en-us/deployoffice/overview-of-update-channels-for-office-365-proplus>

QUESTION 4

You have a Microsoft 365 subscription.

You add a domain named contoso.com.

When you attempt to verify the domain, you are prompted to send a verification email to admin@contoso.com.

You need to change the email address used to verify the domain.

What should you do?

- A. From the domain registrar, modify the contact information of the domain
- B. Add a TXT record to the DNS zone of the domain
- C. Modify the NS records for the domain
- D. From the Microsoft 365 admin center, change the global administrator of the Microsoft 365 subscription

Correct Answer: A

The email address that is used to verify that you own the domain is the email address listed with the domain registrar for the registered contact for the domain.

Reference: <https://docs.microsoft.com/en-us/microsoft-365/admin/setup/add-domain?view=o365-worldwide>

QUESTION 5

You need to ensure that all the sales department users can authenticate successfully during Project1 and Project2. Which authentication strategy should you implement for the pilot projects?

- A. password hash synchronization and seamless SSO
- B. pass-through authentication
- C. password hash synchronization
- D. pass-through authentication and seamless SSO

Correct Answer: A

1.

Project1: During Project1, the mailboxes of 100 users in the sales department will be moved to Microsoft 365.

2.

Project2: After the successful completion of Project1, Microsoft Teams and Skype for Business will be enabled in Microsoft 365 for the sales department users.

3.

After the planned migration to Microsoft 365, all users must be signed in to on-premises and cloud-based applications automatically.

4.

Fabrikam does NOT plan to implement identity federation.

5.

After the planned migration to Microsoft 365, all users must continue to authenticate to their mailbox and to SharePoint sites by using their UPN.

You need to enable password hash synchronization to enable the users to continue to authenticate to their mailbox and to SharePoint sites by using their UPN.

You need to enable SSO to enable all users to be signed in to on-premises and cloud-based applications automatically.
