**QUESTION 1**

**HOTSPOT**

You have a Microsoft 365 subscription that uses Microsoft Teams and contains the users shown in the following table.

Name	Role	Azure Active Directory (Azure AD) license	Microsoft 365 license
User1	User administrator	Azure Active Directory Premium Plan1	Enterprise E5
User2	None	Azure Active Directory Premium Plan1	Enterprise E5
User3	None	Azure Active Directory Premium Plan2	Enterprise E5
User4	None	Azure Active Directory Premium Plan2	Enterprise E5
Guest1	None	None	None

You have the team shown in the following table.

Name	Owner	Members and guests
Project1	User2	User3 User4 Guest1

A new access review needs to be created for Project1.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

**Answer Area**

Statements	Yes	No
User1 can create and manage the access review.	<input type="radio"/>	<input type="radio"/>
User2 can be assigned as a reviewer of the access review.	<input type="radio"/>	<input type="radio"/>
Guest1 can be assigned as a reviewer of the access review.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

## Answer Area

Statements	Yes	No
User1 can create and manage the access review.	<input checked="" type="radio"/>	<input type="radio"/>
User2 can be assigned as a reviewer of the access review.	<input checked="" type="radio"/>	<input type="radio"/>
Guest1 can be assigned as a reviewer of the access review.	<input type="radio"/>	<input checked="" type="radio"/>

### QUESTION 2

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com.

You need to prevent guest users in the tenant from using cameras during Microsoft Teams meetings.

Solution: From Microsoft Teams admin center, you modify the External collaboration settings.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B

<https://docs.microsoft.com/en-us/microsoftteams/set-up-guests>

### QUESTION 3

You are assigned the Groups Administrator role.

You discover that you cannot create an expiration policy in Microsoft 365.

You need to create the expiration policy. The solution must use the principle of least privilege.

What should you do first?

A. Modify the global (Org-wide default) app permission policy.

B. Request the Global Administrator role.

- C. Upgrade the Azure AD license.
- D. Purchase a Microsoft Defender for Identity license.

Correct Answer: B

According to the Microsoft documentation, to create an expiration policy for Microsoft 365 groups, you need to have one of the following roles:

1.  
Global administrator
2.  
Groups administrator
3.  
User administrator

The Groups Administrator role allows you to manage all aspects of Microsoft 365 groups, including their settings, classifications, expiration policy, and naming policy. However, this role does not allow you to create an expiration policy for Microsoft 365 groups.

Therefore, based on this information, the correct answer is B. Request the Global Administrator role. This role has the highest level of permissions and can perform any administrative task in Microsoft 365. Alternatively, you can request the User Administrator role, which can also create an expiration policy for Microsoft 365 groups.

---

#### QUESTION 4

You work as a Microsoft 365 Administrator for your company. All users have Microsoft 365 E5 licenses.

All users use Microsoft Teams for collaboration.

You upload a custom app to Microsoft Teams. The custom app will be used by all users in the company.

You need to ensure that the custom app appears at the top of the app bar in Microsoft Teams.

Which of the following actions should you perform?

- A. Configure the global app setup policy.
- B. Create a configuration profile.
- C. Configure the global app permission policy.
- D. Configure the global Teams policy.

Correct Answer: A

---

## QUESTION 5

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while

others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: From the Microsoft Teams admin center, you run the Network Planner.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B
