QUESTION 1

What configuration setting for FortiGate is part of a device-level database on FortiManager?

A. VIP and IP Pools

B. Firewall policies

C. Security profiles

D. Routing

Correct Answer: D

QUESTION 2

What is the purpose of the Policy Check feature on FortiManager?

A. To find and provide recommendation to combine multiple separate policy packages into one common policy package

B. To find and merge duplicate policies in the policy package

C. To find and provide recommendation for optimizing policies in a policy package

D. To find and delete disabled firewall policies in the policy package

Correct Answer: B

QUESTION 3

In addition to the default ADOMs, an administrator has created a new ADOM named Training for FortiGate devices. The administrator sent a device registration to FortiManager from a remote FortiGate. Which one of the following statements is true?

A. The FortiGate will be added automatically to the default ADOM named FortiGate.

B. The FortiGate will be automatically added to the Training ADOM.

C. By default, the unregistered FortiGate will appear in the root ADOM.

D. The FortiManager administrator must add the unregistered device manually to the unregistered device manually to the Training ADOM using the Add Device wizard

Correct Answer: C
