QUESTION 1

Is this an option available to end users for self-service password reset if enabled by an Okta Administrator?

Solution: Google Authenticator

A. Yes

B. No

Correct Answer: B

QUESTION 2

Is this a true statement about deleting Okta user accounts?

Solution: After an account is deleted, an administrator CANNOT reuse the deleted user name.

A. Yes

B. No

Correct Answer: B

QUESTION 3

Is this something an Okta Administrator can do to manage a dashboard setting for an end user?

Solution: Prevent an end user from changing the order of tabs in the end user dashboard

A. Yes

B. No

Correct Answer: B

QUESTION 4

Is this one of the default base attributes in the Okta user profile that can be marked as required or optional for Okta mastered users?

Solution: firstName

A. Yes

B. No

Correct Answer: B

Explanation: Okta has defined 31 default base attributes for all users in an org. These base attributes are generally fixed and cannot be modified or removed. There are two exceptions: First Name and Last Name. These two attributes can be marked as required or optional for Okta and Active Directory (AD)-mastered users. The default setting for new AD instances is that first and last name are required. [https:// help.okta.com/en/prod/Content/Topics/Directory/ad-name-optional.htm](https://help.okta.com/en/prod/Content/Topics/Directory/ad-name-optional.htm)

QUESTION 5

Is this a protocol that uses ID tokens? Solution: SAML

A. Yes

B. No

Correct Answer: B

Explanation: <https://developer.okta.com/docs/guides/validate-id-tokens/overview/>
