**QUESTION 1**

Which of the following must be enabled in order for UserID to function?

- A. Captive Portal Policies must be enabled.
- B. UserID must be enabled for the source zone of the traffic that is to be identified.
- C. Captive Portal must be enabled.
- D. Security Policies must have the UserID option enabled.

Correct Answer: B

QUESTION 2

With IKE, each device is identified to the other by a Peer ID. In most cases, this is just the public IP address of the device. In situations where the public ID is not static, this value can be replaced with a domain name or other text value

- A. True
- B. False

Correct Answer: A

QUESTION 3

Which routing protocol is supported on the Palo Alto Networks platform?

- A. BGP
- B. RSTP
- C. ISIS
- D. RIPv1

Correct Answer: A

QUESTION 4

Which statement accurately reflects the functionality of using regions as objects in Security policies?

- A. Predefined regions are provided for countries, not but not for cities. The administrator can set up custom regions, including latitude and longitude, to specify the geographic position of that particular region.
- B. The administrator can set up custom regions, including latitude and longitude, to specify the geographic position of that particular region. These custom regions can be used in the "Source User" field of the Security Policies.

C. Regions cannot be used in the "Source User" field of the Security Policies, unless the administrator has set up custom regions.

D. The administrator can set up custom regions, including latitude and longitude, to specify the geographic position of that particular region. Both predefined regions and custom regions can be used in the "Source User" field.

Correct Answer: A

QUESTION 5

Subsequent to the installation of new licenses, the firewall must be rebooted
