QUESTION 1

A company is creating a Power Apps solution for a production facility.

The current solution is in English. The customized components must be translated into several languages.

You need to extract the text for translation.

In which location can you achieve this goal?

A. The tables in the web application.

B. The selected environment in the Microsoft Power Platform admin center.

C. The solution in the web application.

D. The individual solution components in the web application.

Correct Answer: C

Export the localizable text.

The scope of the localizable text that will be exported is the unmanaged solution that contains the localizable text.

From Power Apps, select Solutions.

In the All Solutions list, select the unmanaged solution that contains the localizable text you want.

On the command bar, select Translations > Export Translations.

QUESTION 2

DRAG DROP

A company that manufactures medical devices uses Power Apps to manage their sales and device maintenance.

A table named Devices in Microsoft Dataverse has a column named Status. The Status column must have a new status value of Review added to the existing Choice values of Active and Inactive.

The table must be added to a solution to be promoted once the change is made.

Only this change must be promoted to the test environment. The changes must not be able to be changed once promoted.

You need to add the change to a solution for promotion.

Select and Place:

Options

Add column

Add existing

Add required components

Add subcomponent

Answer Area

Action	Option
Add the Devices table to the solution.	Option
Add the status column changes only to the solution.	Option

Correct Answer:

Options

| Add column |

| |

| Add required components |

Answer Area

Action		Option
Add the Devices table to the solution.		Add existing
Add the status column changes only to the solution.		Add subcomponent

QUESTION 3

HOTSPOT

You need to embed the check-in solution into the communication solution. To answer, select the appropriate options in the answer area.
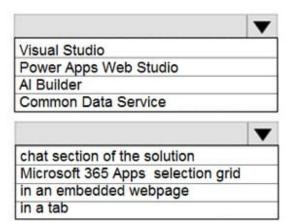

NOTE: Each correct selection is worth one point.

Hot Area:

![Pass2Lead](https://Pass2Lead.com)
Answer Area

What must you use to embed the check-in solution?

▼
Visual Studio
Power Apps Web Studio
AI Builder
Common Data Service

Where must the check-in solution be available within the communication solution?

▼
chat section of the solution
Microsoft 365 Apps selection grid
in an embedded webpage
in a tab

Correct Answer:

Answer Area

What must you use to embed the check-in solution?

▼
Visual Studio
Power Apps Web Studio
AI Builder
Common Data Service

Where must the check-in solution be available within the communication solution?

▼
chat section of the solution
Microsoft 365 Apps selection grid
in an embedded webpage
in a tab

QUESTION 4

You are using Power BI to build a dashboard for a company.

You must make the dashboard available to a specific set of users, including employees and five external users. The number of employees that require access to the dashboard varies, but usually less than 100.

Employees and external users must not be permitted to share the dashboard with other users.

You need to share the dashboard with the employees and external users.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

![Pass2Lead](https://Pass2Lead.com)
A. Create a dynamic distribution list. Add all users to the distribution group and use the list to share the dashboard.

B. Sign into the Power BI service. Open the dashboard and select Share.

C. Enter the individual email address of internal and external users.

D. Sign into Power BI Desktop. Open the dashboard and select Share.

E. Clear the Allow recipients to share your dashboard (or report) option.

F. Create a distribution group. Add all users to the distribution group and use the list to share the dashboard.

Correct Answer: BCE

---

QUESTION 5

You are a Dynamics 365 Sales administrator for a software company. The sales team wants to attach a large number of supporting documents to customer records, but management does not want to incur the cost of additional storage.

The company does not have any Office 365 application integrations enabled.

You need to recommend a storage solution that keeps storage costs low.

Solution: Enable server-based SharePoint integration.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A
