QUESTION 1

Universal con needs a field on the account to track how many opportunities are closing within the next 30 days. What can be used?

- A. Workflow rule
- B. Roll-up summary field
- C. Process builder
- D. Apex code

Correct Answer: D

QUESTION 2

Users at Cloud Kicks provided feedback that the time card custom page layout has too many fields on it, and some fields are only needed if other fields are entered. What should an app builder configure to help with this issue?

- A. Separate page layouts
- B. Dependent picklists
- C. Dynamic forms
- D. Lightning web components

Correct Answer: C

QUESTION 3

An app builder is creating a custom object called Testimonial__c and wants to connect Testimonial__c records with both the submitter's Contact record and Account record. If the Account is deleted, the Testimonial__c should also be deleted. If the Contact is deleted, but the Account remains, the Testimonial__c should remain.

How should this be accomplished?

- A. Create a lookup relationship from Testimonial__c to Account and a master-detail relationship from Testimonial__c to Contact.
- B. Create a master-detail relationship from Testimonial__c to Account and a lookup relationship from Testimonial__c to Contact.
- C. Make Testimonial__c a junction object between Account and Contact using master-detail relationships.
- D. Make both the Contact and Account fields required on the Testimonial__c object and create lookup relationships from Testimonial__c to Contact and to Account.

Correct Answer: B

QUESTION 4

What is true about Master-Detail relationships? (Choose two.)

- A. You can have a child record without the parent record.
- B. You have to expose the master-detail field on the child object page layout.
- C. When the parent record is deleted, all child records will be deleted.
- D. You cannot delete a child object.

Correct Answer: BC

QUESTION 5

On the Account Lightning record page, users need to see ten fields and the ability to sort and wrap text on their Related Lists. What Related List type would the app builder select for the Related List Lightning component?

- A. List View
- B. Basic List
- C. Enhanced List
- D. List Class

Correct Answer: C
