Correct Answer: C

---

**QUESTION 3**

**HOTSPOT**

At the end of stage 3, the service provider will be selected and the contract awarded. During stage 4, the Account Manager for the selected service provider will work with the Project Manager to complete the transition of the services to the selected service provider.

Hot Area:

	Assertion		Reason	
1	The Project controls section of the Project Initiation Documentation should be updated as soon as the service provider has been selected during stage 3.	True-False	The Project Initiation Documentation contains a summary of the project level controls for monitoring and reporting.	True-False
2	Time-driven controls should be used to monitor the service provider's progress during stage 4.	True-False	The Project Manager requires regular progress reports from a Team Manager in order to monitor the progress of a Work Package.	True-False
3	Once the service provider is selected, the Product Description for the selected service provider should be updated.	True-False	The composition field of a Product Description should be used to record an change in the status of a product.	True-False
4	Checkpoint Reports should provide updates on the progress of the transfer of equipment and staff.	True-False	A Work Package defines the reporting arrangements and approval method between a supplier and the Project Board.	True-False
5	The selected service provider, acting as a Team Manager in stage 4, should provide an Exception Report for the Project Manager if their Work Package is forecast to exceed its tolerance.	True-False	The Team Manager is responsible for informing the Project Manager if any of the agreed tolerances for a Work Package are forecast to be exceeded.	True-False
6	Benefit tolerance should be set in the next Stage Plan for Project Assurance to monitor.	True-False	Project Assurance is responsible for monitoring the Business Case against project progress.	True-False

Correct Answer:

	Assertion		Reason	
1	The Project controls section of the Project Initiation Documentation should be updated as soon as the service provider has been selected during stage 3.	True-False	The Project Initiation Documentation contains a summary of the project level controls for monitoring and reporting.	True-False
2	Time-driven controls should be used to monitor the service provider's progress during stage 4.	True-False	The Project Manager requires regular progress reports from a Team Manager in order to monitor the progress of a Work Package.	True-False
3	Once the service provider is selected, the Product Description for the selected service provider should be updated.	True-False	The composition field of a Product Description should be used to record an change in the status of a product.	True-False
4	Checkpoint Reports should provide updates on the progress of the transfer of equipment and staff.	True-False	A Work Package defines the reporting arrangements and approval method between a supplier and the Project Board.	True-False
5	The selected service provider, acting as a Team Manager in stage 4, should provide an Exception Report for the Project Manager if their Work Package is forecast to exceed its tolerance.	True-False	The Team Manager is responsible for informing the Project Manager if any of the agreed tolerances for a Work Package are forecast to be exceeded.	True-False
6	Benefit tolerance should be set in the next Stage Plan for Project Assurance to monitor.	True-False	Project Assurance is responsible for monitoring the Business Case against project progress.	True-False

**QUESTION 4**

**HOTSPOT**

The Calendar project was delivered as originally planned, and is now preparing for planned closure.

Lines 1 to 6 in the table below consist of an assertion statement and a reason statement. For each line identify the appropriate option, from options A to E, that applies. Each option can be used once, more than once or not at all.

Hot Area:

	Assertion		Reason	
A	Whether the calendar achieves its objective of countering the decline in orders will be confirmed in the Closing a Project process.	True-False	The Benefits Review Plan is created in the Closing a Project process.	True-False
B	A formal quality review meeting, chaired by the Project Manager, should be held for the Project Board to compare the final deliverable against the Project Product Description.	True-False	The Project Product Description is used by the Closing a Project process to verify that the project has delivered what was expected of it.	True-False
C	The End Project Report must be completed before 30 November.	True-False	An End Project Report should be produced before a project closes.	True-False
D	The Stage Plan for stage 3 should contain details of the products to be created or updated during the Closing a Project process.	True-False	Closure activities should be planned as part of the Stage Plan for the final management stage.	True-False
E	As part of the handover of the final product a contract should be agreed with Marketing for ongoing support of this product.	True-False	A service agreement or maintenance contract should always be included as a product of the final stage.	True-False
F	At the end of stage 3, the Managing a Stage Boundary process should be used to update the Project Plan with actual from the final stage.	True-False	An objective of the Managing a Stage Boundary process is to review, and if necessary, update the Project Initiation Documentation.	True-False

Correct Answer:

	Assertion		Reason	
A	Whether the calendar achieves its objective of countering the decline in orders will be confirmed in the Closing a Project process.	True-False	The Benefits Review Plan is created in the Closing a Project process.	True-False
B	A formal quality review meeting, chaired by the Project Manager, should be held for the Project Board to compare the final deliverable against the Project Product Description.	True-False	The Project Product Description is used by the Closing a Project process to verify that the project has delivered what was expected of it.	True-False
C	The End Project Report must be completed before 30 November.	True-False	An End Project Report should be produced before a project closes.	True-False
D	The Stage Plan for stage 3 should contain details of the products to be created or updated during the Closing a Project process.	True-False	Closure activities should be planned as part of the Stage Plan for the final management stage.	True-False
E	As part of the handover of the final product a contract should be agreed with Marketing for ongoing support of this product.	True-False	A service agreement or maintenance contract should always be included as a product of the final stage.	True-False
F	At the end of stage 3, the Managing a Stage Boundary process should be used to update the Project Plan with actual from the final stage.	True-False	An objective of the Managing a Stage Boundary process is to review, and if necessary, update the Project Initiation Documentation.	True-False

**QUESTION 5**
