QUESTION 1

Which best describes the practice of expressing requirements as acceptance tests?

- A. Regression testing
- B. Acceptance test driven development
- C. Objective Driven Development
- D. Quality Oriented Requirements Development

Correct Answer: B

This is pretty much the definition of ATDD.

QUESTION 2

Database design must be complete before coding starts to ensure a solid foundation

- A. False
- B. True

Correct Answer: A

The design grows as more is learnt.

QUESTION 3

What relation does scrum have to development practices?

- A. Scrum requires a specific set of development practices
- B. Scrum is complemented by good development practices
- C. Scrum requires all development practices
- D. Scrum has no relationship to development practices

Correct Answer: B

Scrum requires no development practices, but good development practices do help and make scrum more successful.

QUESTION 4

How much time does Product backlog refinement take?

- A. 25% of the sprint capacity

- B. As much as needed without endangering the Sprint goal
- C. 10% of the senior developers

Correct Answer: B

The refinement is very important and can take quite some time for that reason, however, it should not endanger the sprint goal.

QUESTION 5

Which three of the following are feedback loops in scrum?

- A. Release planning
- B. Daily scrum
- C. Sprint review
- D. Sprint retrospective
- E. Refinement meeting

Correct Answer: BCD

Refinement meeting and release planing are no scrum events. The others are, and they are all about feedback: inspection and adaptation. (And in order for the inspection to have a good outcome, the artifacts need to be transparent)
