**QUESTION 1**

How can a network engineer export all flow logs and security actions to a security information and event management (SIEM) system?

- A. Enable syslog on the Instant-On Network (ION) device.
- B. Use a zone-based firewall to export directly through application program interface (API) to the SIEM.
- C. Enable Simple Network Management Protocol (SNMP) on the Instant-On Network (ION) device.
- D. Use the centralized flow data-export tool built into the controller.

Correct Answer: A

---

**QUESTION 2**

Which elements of Autonomous Digital Experience Management (ADEM) help provide end- to-end visibility of everything in an organization's environment?

- A. integrated threat intelligence management, automated distribution to enforcement points at scale, full ticket mirroring
- B. scanning of all traffic, ports, and protocols
- C. data collected from endpoint devices, synthetic monitoring tests, and real-time traffic
- D. alerts, artifacts, and MITRE tactics

Correct Answer: A

---

**QUESTION 3**

Which secure access service edge (SASE) networking component inspects web-based protocols and traffic to securely connect users to applications?

- A. proxy
- B. SD-WAN
- C. secure web gateway (SWG)
- D. cloud access security broker (CASB)

Correct Answer: C

---

**QUESTION 4**

In which step of the Five-Step Methodology for implementing the Zero Trust model does inspection and logging of all traffic take place?

- A. Step 4: Create the Zero Trust policy
- B. Step 3: Architect a Zero Trust network
- C. Step 1: Define the protect surface
- D. Step 5: Monitor and maintain the network

Correct Answer: D

---

#### QUESTION 5

How does the Palo Alto Networks secure access service edge (SASE) solution enable Zero Trust in a customer environment?

- A. It stops attacks that use DNS for command and control or data theft.
- B. It feeds threat intelligence into an automation engine for rapid and consistent protections.
- C. It classifies sites based on content, features, and safety.
- D. It continuously validates every stage of a digital interaction.

Correct Answer: D
