QUESTION 1

A customer interested in Panorama is concerned about managing multiple firewalls they are putting in place globally. Each location has its own IP addresses, zones, and VPN configurations.

Which element of Panorama will assist the customer in pushing this unique configuration information to the individual firewalls?

- A. device profile
- B. GlobalProtect
- C. templates
- D. device groups

Correct Answer: C

QUESTION 2

Which of the following is an appropriate first step for a customer interested in moving to Zero Trust?

- A. Ask administrators to switch on the Zero Trust options and features of their current products.
- B. Secure the funding required to incorporate the new architecture into their existing networks.
- C. Set priorities by identifying the most valuable and critical assets and data on their networks.
- D. Request a statement of compliance from their IT vendors against the Zero Trust standard.

Correct Answer: D

QUESTION 3

A Human Resources (HR) application has the URL of <https://hr.company.com:4433/>.

How should the "Service" column of the Security policy be set to match and permit this application?

- A. Define and then select a new custom Transmission Control Protocol (TCP) service with port 4433.
- B. Edit "service-https" to use port 4433.
- C. Set to "service-http".
- D. Set to "application-defaults," which will locate and match the HR application.

Correct Answer: A

QUESTION 4

Which of the following is an advantage of the Palo Alto Networks Next-Generation Firewall (NGFW)?

- A. Docker containers can be run on the hardware to add features.
- B. It identifies applications by port number and protocol.
- C. It is well positioned in the network to do more than provide access control.
- D. Customers can create their own mix of security vendor products.

Correct Answer: C

QUESTION 5

Which three of the following are features of the Palo Alto Networks Next-Generation Firewall (NGFW) that differentiate it from a stateful inspection firewall? (Choose three.)

Select 3 Correct Responses

- A. Login-ID
- B. User-ID
- C. App-ID
- D. Network-ID
