QUESTION 1

Which of the following can limit cabling mistakes?

A. Proper labeling

B. Asset management

C. Keeping good vendor logs

D. Keeping up-to-date repair logs

Correct Answer: A

QUESTION 2

A company is planning to replace old hardware and needs to budget accordingly. Which of the following is likely to contain a list of end of life servers?

A. The server\\'s warranty information.

B. The server\\'s life cycle schedule.

C. The asset management database.

D. The software licensing agreement.

Correct Answer: C

QUESTION 3

A server technician is notified that a server IP address is changing on the network. The technician changes the static IP address on the NIC to match the new address. However, when the technician issues the nslookup command with the hostname of the machine, the old IP address assignment is still being reported. The technician also performs a reverse DNS lookup using the old IP and verifies the FQDN of the server is reported. Given this scenario, which of the following should the technician inspect to resolve this issue? (Select TWO).

A. DNS CNAME record type

B. DNS A record type

C. DNS PTR record type

D. DNS SRV record type

E. DNS MX record type

Correct Answer: BC

QUESTION 4

A technician reads a hardware manufacturer\\'s blog indicating a critical firmware update is available for the company\\'s file server. Which of the following is the BEST course of action?

A. Download and install a firmware update from a centralized server.

B. Download the firmware update and test it on a VM.

C. Download the firmware update and test it on a non-production server.

D. Download the firmware update and run it on the company\\'s file server immediately.

Correct Answer: C

QUESTION 5

A technician is installing two new four-lane PCIe network cards into a server that has two one-lane PCIe slots open, two four-lane PCIe slots open, two eight-lane PCIe slots open, and two 16-lane PCIe slots open. Which of the following is the BEST option for the technician?

A. Use the two four-lane PCIe slots

B. Use the two eight-lane PCIe slots

C. Use the two one-lane PCIe slots

D. Use the two 16-lane PCIe slots

Correct Answer: A
