QUESTION 1

At the top of a dictionary page are the words "pelican" and "perambulate."

Which of the following words does not belong on this page?

- A. perigee
- B. pepsin
- C. pentathlon
- D. penance

Correct Answer: A

QUESTION 2

The descriptions in these essays range widely, from the fanciful to the matter-of-fact, from the _____ to the fatuous, from the objective to the _____.

- A. witty; realistic
- B. meager; descriptive
- C. insightful; impressionistic
- D. inane; commonplace
- E. articulate; empirical

Correct Answer: C

One example of the wide range of description in the essays referred to in the given sentence is mentioned as "from the fanciful to the matter-of-fact." Since these are exact opposites. The other two phrases should also represent exact opposites so, the first missing must be the opposite of the word "fatuous" (meaning silly), and the second missing word must be the opposite of the word "objective" (meaning unemotional). Among the given choices, it is the pair "insightful; impressionistic" which are the opposites of "fatuous" and "subjective" respectively. So, "insightful; impressionistic" is the answer.

QUESTION 3

Rachel Carson's Silent Spring, which graphically exposed the _____ of the indiscriminate use of pesticides, is widely credited with having _____ the modern environmental movement.

- A. advantages; inaugurated
- B. hazards; defused
- C. benefits; launched

D. deaths; contained

E. dangers; inspired

Correct Answer: E

The word "exposed", and the phrase "indiscriminate use of pesticides", imply that the first missing word must be one which stands for something bad that is associated with the use of pesticides. So, the choices "advantages" and "benefits" can be ruled out first. Since the phrase "deaths of the indiscriminate use of pesticides" does not make sense, the choice "deaths" can also be ruled out leaving "hazards" (meaning risks) and "dangers" as the only possible choices for the first missing word. If the pair "hazards; defused" is chosen, the sentence would mean that the exposure of the hazards of using pesticides defused for weakened the modern environmental movement, which is illogical. The pair "dangers; inspired" completes a cogent and logical sentence.
