QUESTION 1

Your client wants their supply plans to have a customized group of exceptions. What two steps must you complete in order to make sure only these exceptions are included when running all of your client's supply plans? (Choose two.)

- A. Manage Plans > Select each supply plan > Edit each supply plan > Manually add each exception specified by client
- B. Configure Exceptions > Expand Supply Planning Exceptions > Highlight lines with exceptions specified by client > Click 'Add to Exception Set'
- C. Configure Exception Sets > Create exception set > Add exceptions specified by client
- D. Select 'Add to Supply Plan' button > Select which supply plans you want to have this group of exceptions
- E. Manage Plans > Select each supply plan > Edit each supply plan > Add your exception set to Plan Options for each supply plan

Correct Answer: CE

QUESTION 2

Which four types of supplies can be reserved to a sales order in the inventory? (Choose four.)

- A. Work orders
- B. On-hand inventory
- C. Purchase requisitions
- D. Purchase orders
- E. Transfer orders
- F. Planned Orders

Correct Answer: ABDE

QUESTION 3

You analyzed your customer's shipment history data at item and organization level. You found that the customer has many new products with limited history.

Does Planning Central support forecasting products with limited history, and what is this process called?

- A. No, Planning Central does not support the Croston Method for Sparse Demand forecasting method.
- B. Yes, Planning Central supports the Regression for Sparse Demand forecasting method, typically used for new products.
- C. Yes, Planning Central supports the Holt Exponential Smoothing forecasting method used for newly introduced products.

- D. No, Planning Central does not support the Regression for Sparse Demand forecasting method.
- E. No, Planning Central does not support the Holt Exponential Smoothing forecasting method.

Correct Answer: C

QUESTION 4

Cost accounting captures costed transactions that are picked up by the cost processor. Which is not picked up by the cost processor?

- A. invoices and revenue interfaced from Cloud Receivables
- B. supplier invoices interfaced from Cloud Payables
- C. shipping, receiving, and inventory transactions from manufacturing
- D. period close adjusting journal entries for Payroll

Correct Answer: A

QUESTION 5

PC Vision Plan

Social * Page Layout Plan Summary

Plan Summary x Forecast Analysis x Items x Supplies and Demands x **Exceptions x**

- ▶ Demand Planning Exceptions
- ▶ Supply Planning Exceptions
 - Demand Quantity Not Satisfied (0)
 - Demand at Risk Due to Insufficient**
 - Demand at Risk Due to Resource S**
 - Demand at Risk Due to Supplier Ca**
 - Items Below Safety Stock (18)**
 - Items with Excess Inventory (393)**
 - Items with Expired Lots (0)
 - Items with a Shortage (8)**
 - Late Replenishment for Forecast (0)
 - Late Replenishment for Sales Order (
 - Late Supply Pegged to Forecast (2**
 - Late Supply Pegged to Sales Order**
 - Order Sourced from Alternate Facility
 - Order Sourced from Alternate Supp**
 - Orders To Be Canceled (0)
 - Orders To Be Rescheduled In (121)**
 - Orders To Be Rescheduled Out (28**

When creating a new replenishment plan, what are the required plan options?

- A. Segment Group. Segments. Policy Assignment Set
- B. Segment Group. Inventory Policies. Policy Assignment Set
- C. Segment Group. Segments. Inventory Policies
- D. Segment Group. Segments. Inventory Policies. Policy Assignment Set

Correct Answer: A

QUESTION 6

Which two statements are true when using Measure catalogs? (Choose two.)

- A. The predefined measure catalog is not the system default.
- B. The measure catalog has a collection of measures that you can enable for use in a single plan in the Planning Central work area.
- C. You can restrict access to Measure Catalogs using Administer Data Security.
- D. You can add or remove measures from a measure catalog.
- E. Measure catalogs are defined in the system to improve the performance of the plan.
- F. You navigate to Configure Measure Catalogs to edit the Catalog.

Correct Answer: BD

Measure Catalogs: Explained

The measure catalog is similar to the dimension catalog. Each measure catalog has a collection of measures that you can enable for use in a single plan in the Planning Central work area. Oracle provides predefined measures from which to select to perform any type of analysis.

On the Configure Planning Analytics page, Measure Catalogs tab, you can create a measure catalog and add or remove measures from a measure catalog.

The predefined measure catalog is the system default. When you create a new plan, the measure catalog that is used is based on the **Default** check box located on the Measure Catalogs tab. If you change the default later, the plan would continue to use the same measure catalog that it was created with.

Can I modify the default measure catalog?

No. The default measure catalog is a predefined catalog with over 200 measures available in Supply Chain Planning. Although you cannot modify the default measure catalog, you can create a custom measure catalog, modify the list of measures, and assign it to plans on the Plan Options page.

QUESTION 7

The marketing department of a company needs to analyze the forecast based on type of demand (large retailer versus specialty store) and item cost (low versus high).

After creating a segment group with demand class and product for segment granularity, what additional sequence of actions must they also perform to satisfy marketing?

A. Define four segments based on demand type and item cost, define each segment's criteria, execute segmentation, and use the selector tool to create a new table or graph.

B. Define four segmentation based on demand type and item cost, define each segment's criteria, execute segmentation, configure planning analytics to update the dimension catalog, and use the selector tool to create a new table or graph.

C. Define four segments based on demand type and item cost, execute segmentation, and use the selector tool to create a new table or graph.

D. Define two segments based on demand type and item cost, execute segmentation, and use the selector tool to create a new table or graph.

Correct Answer: A

QUESTION 8

A customer would like to account for the production loss in the supply planning process using the item shrinkage rate planning specification.

Which statement reflects the system behavior to meet this requirement?

A. Planning process reduces the demand based on shrinkage factor and keeps the supply quantity as is.

B. Planning calculation does not support shrinkage functionality.

C. Planning calculates no additional demand but creates the additional required supply based on shrinkage factor.

D. Planning calculation creates scrap demand to compensate for loss and maintains supply.

Correct Answer: D

QUESTION 9

A customer has created a supply plan based on current requirement. Due to changes in third party forecast, the plan must be rerun with these recent updates. However, while this new information became available, existing supply like on-hand inventory and work order completions have also been updated.

Which data refresh option should be used to reflect all these changes in the plan?

A. Do not refresh with current data

B. Refresh with quick refresh option

C. Refresh with forecast data

D. Refresh with selected current data

E. Refresh with current data

Correct Answer: E

QUESTION 10

Your customer wants to be able to manually change the input values in purchase orders and transfer orders for the suggested plan recommendations. Which two recommendations are released by supply chain planning to Oracle Supply Chain Orchestration Cloud? (Choose two.)

- A. Schedule planned orders for make, buy, and transfer of supplies
- B. New planned orders for make, buy, and transfer of supplies
- C. Reschedules of existing make, buy, and transfer supplies
- D. Reschedules of sales orders, make, and buy

Correct Answer: BC

QUESTION 11

When analyzing demand fulfillment, what are the three types of recommendations that users can review and accept for expediting? (Choose three.)

- A. Expedite transfer orders
- B. Expedite make orders
- C. Expedite buy orders
- D. Expedite drop ship orders
- E. Expedite make to stock orders

Correct Answer: ABC

QUESTION 12

Which three statements are true regarding exceptions? (Choose three.)

- A. The conditions under which exceptions are generated can be modified.
- B. You can act on an exception by selecting it and clicking 'Resolve exception'. A list of ways to resolve will be generated.
- C. The calculation logic for exceptions can be modified.
- D. You can drill down into Supplies and Demand from an exception line.
- E. You can export exception tables to Excel.

F. You can create custom exceptions.

Correct Answer: ACE

QUESTION 13

Which four types of items are eligible to be included as Supply Planned Items in the Supply Plan? (Choose four.)

- A. Demand plan items
- B. WIP components
- C. All planned items
- D. Purchased Items
- E. Supply plan items
- F. All sales orders

Correct Answer: ABCF

QUESTION 14

Which KPIs are available to measure forecasting accuracy and specify how these measures aggregated from item-organization level to higher levels.

- A. MAPE, MAD, and Bias are used to measure forecast accuracy. MAD and Bias are aggregated using sum. MAPE is aggregated using weighted average.
- B. MAPE, MAD, and Bias are used to measure forecast accuracy. MAPE and Bias are aggregated using weighted average. MAD is aggregated using sum.
- C. MAPE, MFE, and Bias are used to measure forecast accuracy. MAPE and Bias are aggregated using weighted average. MFE is aggregated using sum.
- D. MAPE, MFE, and Bias are used to measure forecast accuracy. MAPE and MFE are aggregated using weighted average. Bias is aggregated using sum.

Correct Answer: A

QUESTION 15

You have executed Planning Data Collection and want to confirm that data has successfully been collected. Identify the three data combinations that can be viewed using the Maintain Supply Network Model Page. (Choose three.)

- A. Customer Location and Carriers
- B. Safety Stock and Subinventories
- C. Sales Channel and Demand Class

D. Calendar and Master Organization

E. Supplier Site and Service Level

Correct Answer: ADE
