Where can an administrator view the number of messages per protocol that have been monitored over a given time period?

- A. Traffic Detail page
- B. Network Incident Report page
- C. Server Detail page
- D. System Events page

Correct Answer: A

QUESTION 4

What occurs when the `hastop -local -force` command is issued on the active node in a two-node active/ passive cluster?

- A. The services will be shut down on the active node and brought up on the passive node.
- B. The services will continue to run on the active node while HAD is stopped.
- C. The service group behavior will follow the value of the `EngineShutdown` attribute while HAD is stopped.
- D. The online service groups on the primary node are taken offline and remain offline until started manually.

Correct Answer: B

QUESTION 5

A resource of type `Application` is configured to be monitored by the Intelligent Monitoring Framework.

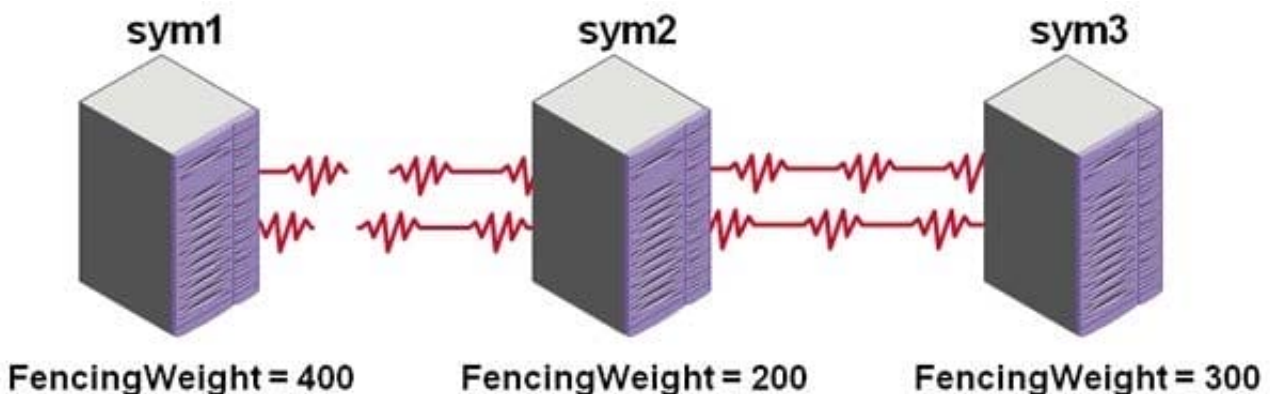

Which resource attribute should be exclusively configured in order to enable the Proactive Prevention of Concurrency feature for the resource of type `Application`?

- A. `PidFiles`
- B. `MonitorProgram`
- C. `MonitorProcesses`
- D. `StartProgram`

Correct Answer: C

QUESTION 6

Refer to the exhibit.

An administrator has configured preferred fencing. Cluster communication breaks and separates sym1 from the other cluster nodes.

Which node(s) will survive the fencing race?

- A. sym1 only

- B. sym2 only
- C. sym3 only
- D. both sym2 and sym3

Correct Answer: D

QUESTION 7

Which type of installation requires the most additional memory on the Enforce Server machine to host multiple server instances?

- A. Three-tier
- B. Two-tier

- A. IMF
- B. HAD
- C. LLT
- D. GAB

Correct Answer: B

QUESTION 11

An employee received the following email notification:

Dear Bob,

Your email to jane_smith@partner.com with subject Account Info you requested violates the company's Customer Data Protection policy.

If this is a legitimate business email, please add the word Encrypt in the subject line of the email. The communication will then be automatically sent to the recipient in an encrypted form, in accordance with company policy.

Please note that this violation has also been reported to your manager. Confidential data protection is every employee's responsibility.

Thank you,

Corporate Information Security Team

Which recommended item is missing from this email notification?

- A. A contact person
- B. The severity of the violation
- C. The affected business unit
- D. The name of the file that caused the violation

Correct Answer: A

QUESTION 12

What is a consideration for properly clustering NFS under Veritas Cluster Server (VCS) control?

- A. The NFS daemon must be started by VCS.
- B. The logical IP addresses must remain with only one system.
- C. The major device numbers need to be identical across all clustered nodes.
- D. The NFS daemon may need to be restarted occasionally.

Correct Answer: C

QUESTION 13

Which three options can incident responders select when deleting incidents? (Select three.)

- A. Delete the incident completely
- B. Delete the original message and retain the incident
- C. Delete the incident and retain the violating attachments or files
