**QUESTION 1**

Which of the following is MOST important when tuning an Intrusion Detection System (IDS)?

- A. Log retention
- B. Storage encryption
- C. Type of authentication
- D. Trusted and untrusted networks

Correct Answer: D

---

**QUESTION 2**

Scenario: A Chief Information Security Officer (CISO) recently had a third party conduct an audit of the security program. Internal policies and international standards were used as audit baselines. The audit report was presented to the CISO and a variety of high, medium and low rated gaps were identified. The CISO has validated audit findings, determined if compensating controls exist, and started initial remediation planning.

Which of the following is the MOST logical next step?

- A. Create detailed remediation funding and staffing plans
- B. Report the audit findings and remediation status to business stake holders
- C. Validate the effectiveness of current controls
- D. Review security procedures to determine if they need modified according to findings

Correct Answer: B

---

**QUESTION 3**

The company decides to release the application without remediating the high-risk vulnerabilities. Which of the following is the MOST likely reason for the company to release the application?

- A. The company does not believe the security vulnerabilities to be real
- B. The company lacks the tools to perform a vulnerability assessment
- C. The company lacks a risk management process
- D. The company has a high risk tolerance

Correct Answer: D

---

**QUESTION 4**

An access point (AP) is discovered using Wireless Equivalent Protocol (WEP). The cipher text sent by the AP is encrypted with the same key and cipher used by its stations.

What authentication method is being used?

- A. Open
- B. Asynchronous
- C. None
- D. Shared key

Correct Answer: D

---

#### QUESTION 5

If your organization operates under a model of "assumption of breach", you should:

- A. Establish active firewall monitoring protocols
- B. Purchase insurance for your compliance liability
- C. Focus your security efforts on high value assets
- D. Protect all information resource assets equally

Correct Answer: B

---

#### QUESTION 6

The PRIMARY objective for information security program development should be:

- A. Reducing the impact of the risk to the business.
- B. Establishing incident response programs.
- C. Establishing strategic alignment with business continuity requirements.
- D. Identifying and implementing the best security solutions.

Correct Answer: A

---
