- C. The user will be allowed to proceed as unauthenticated.
- D. The user will receive an error notifying Access Denied.

Correct Answer: A

---

**QUESTION 3**

When performing anti-virus scanning using Blue Coat appliances, how does the ProxySG determine what specific actions to perform for high-performance or maximum-security deployments?

- A. In the Configuration > Threat Protection settings of the Management Console.
- B. By reading the Threat Protection policy file.
- C. By querying the configuration of the anti-virus scanning appliance.

Correct Answer: A

---

**QUESTION 4**

Which of the following are the benefits of using Bandwidth Management with the ProxySG (Choose all that apply)

(a)

Ensuring mission critical application receives minimum amount of bandwidth

(b)

Compressing certain type of traffic classes before transmitting it over the WAN

(c)

Prioritizing certain traffic classes

(d)

Rate limiting application to prevent "hogging" of network bandwidth.

A.

a, b and c only

B.

a, b and d only

C.

a, c and d only

D.

All of the above

Correct Answer: C

---

#### QUESTION 5

Which of these must be specified on a ProxySG to enable its access logs to be used by Blue Coat Reporter? (Select all that apply)

A. The IP address or hostname of the computer on which Reporter is running.

B. An upload schedule.

C. An upload client.

D. An FTP server to receive the logs.

Correct Answer: AB

---

#### QUESTION 6

- A. True
- B. False

Correct Answer: B

---

**QUESTION 7**

A cookie without an expire value will \_\_\_\_

- A. last until the client cleats cookies from the browser
- B. last until the client closes the browser session
- C. last until the client logs off

Correct Answer: B

---

**QUESTION 8**

`http://www.bluecoat.com/index.html?user=bobkent`

For the above URL, will the trigger `url.regex=!\.html$` match or miss?

- A. Match
- B. Miss

Correct Answer: A

---

**QUESTION 9**

Which method of controlling downloads of certain file types works fastest on ProxySG?

- A. Apparent Data Type
- B. MIME Type
- C. File extension

Correct Answer: C

---

**QUESTION 10**

Is it must the ProxySG use BCAA to perform user authentication to an IWA realm?

- A. Yes.

B. No.

C. It depends on whether that realm has been configured on the ProxySG to be an IWA Direct realm or a BCAA realm.

Correct Answer: A

---

#### QUESTION 11

The ProxySG compiles CPL code at installation time and performs optimizations that might not have been written into the code.

A. True

B. False

Correct Answer: B

---

#### QUESTION 12

When permitting guest authentication, what is one way that can require users to specifically state that they wish to authenticate as a guest?

A. By modifying the standard authentication\_failed exception to include a link that users must click before continuing.

B. By specifying a virtual URL that points to a guest authentication page.

C. By using Force Authenticate in either the VPM or in CPL.

D. By selecting Notify User in the Edit Authenticate Guest Object section of the VPM.

Correct Answer: A

---

#### QUESTION 13

What are the three types of ProxySG surrogate credentials? (Select 3)

A. Connection

B. IP

C. Cookie

D. Redirect

E. Proxy

F. Origin

G. Form

Correct Answer: ABC

---

**QUESTION 14**

What happens when a disk is removed from a ProxySG while it is running?

- A. Subsequent requests to objects that were cached on the removed disk will fail.
- B. The objects on the removed disk are automatically remapped to the remaining disks and are immediately refetched from the appropriate content servers.
- C. The objects on the removed disk are automatically remapped to the remaining disks and are refetched from the appropriate content servers the next time they are requested.
- D. All subsequent transactions to that ProxySG either fail open or fail closed, depending on configuration, until the disk is replaced.

Correct Answer: A

---

**QUESTION 15**

Name two settings that can be configured in a forwarding group to define which hosts in the group receive traffic. (Select all that apply)

- A. Load balancing
- B. Fail open or closed
- C. Host affinity
- D. Redirection

Correct Answer: AD
