Correct Answer: D

QUESTION 6

Alex would like to configure a new Mail Policy. How would a Mail policy settings document help him?

A. A Mail policy settings document will provide a mechanism for setting and enforcing client settings and preferences for Mail only.

B. A Mail policy settings document will provide a mechanism for setting and enforcing client settings and preferences for Calendaring and Scheduling only.

C. A Mail policy settings document will provide a mechanism for setting and enforcing client settings and preferences for Mail, Calendaring and Scheduling.

D. A Mail policy settings document will provide a mechanism for setting and enforcing IBM Notes and Web Mail policies and configuring POP3 and SMTP Mail services.

Correct Answer: C

QUESTION 7

![Pass2Lead](https://Pass2Lead.com)
Carol is using the Assign Policy tool to assign an explicit policy to a selected group and chooses the options to allow replacement of policies and to apply policies in the Policy document. What is the result of this action?

A. This replaces existing explicit policy assignments for each group member and their Person documents are updated to reflect the newly assigned policy.

B. This replaces only existing explicit policy assignments that conflict with the newly created explicit policy assignment and Person document links are added to the Policy document.

C. This migrates existing explicit policy assignments to a dynamic policy assignment for the group members and removes any explicit policy assignments from their Person document.

D. This replaces any organizational policies assigned to the group members with the newly assigned explicit policy and decreases the numeric precedence value in the Policy document.

Correct Answer: C

QUESTION 8

What should an administrator do when enabling the Purge Interval Replication Control for a database?
