- B. Basic (Server)
- C. Advanced (Client)
- D. Basic (Client)

Correct Answer: B

QUESTION 4

Mike wants to add a delete button to his XPage so that the owner of the document can delete the document. In the following code, Mike wants to prompt the user to verify that the user wants to delete this document.

What attribute and value can he use to complete the code?

- A. `alert="Are you sure you want to delete current document?"`
- B. `prompt="Are you sure you want to delete current document?"`
- C. `msgbox="Are you sure you want to delete current document?"`
- D. `message="Are you sure you want to delete current document?"`

Correct Answer: D

QUESTION 5

Jackie is updating the Travel application. There are several forms that are used from the Notes client and from the Web browser, and she needs to add an area at the bottom of each form to be used to capture approval/denial comments. Jackie has created XPages that make use of JavaScript controls for rich text, and she would like to offer Web users a similar rich-text experience in the field that she will add on a new subform.

How can she do this task?

- A. Add a rich text field on the subform. The JavaScript controls are the default starting in Domino 8.5
- B. Position the cursor in the subform where the new field should be created, and select Create > Object > Dojo Edit Box.
- C. Add a rich text field on the subform. In the Web Access section of the Field properties, set the Display option to Using JavaScript Control.
- D. Position the cursor in the subform where the new field should be created. Drag a rich text control from the controls palette onto the subform.

Correct Answer: C

QUESTION 6

Zachary is creating a new theme for his XPage. How is the theme file formatted in the Resources area of the application?

- A. XML

- B. CSS
- C. HTML
- D. JavaScript

Correct Answer: A
