QUESTION 4

Which of the following is a key benefit to customers who deploy zEnterprise compared to other solutions?

A. A hypervisor infrastructure that allows movement of an application online between different architectures

B. A hypervisor and hardware management across multiple platforms.

C. A management solution that provides support across multiple x86 hypervisors.

D. A management solution for the complete mulit-vendor infrastructure within a datacenter.

Correct Answer: B

QUESTION 5

The System z Technical Specialist is asked by a customer for differentiators of a zBX solution with x86 blades compared to x86 blades in a traditional BladeCenter. Which of the following is a key differentiator?

A. VMware license costs for x86 blades will be the same when integrated into zBX, but management costs will be lower.

B. Software license costs on x86 blades are optimized when integrated into zBX.

C. Unified Resource Manager includes an x86 hypervisor, and management costs are lower.

D. Any existing customer x86 Blades can be integrated into the zBX

Correct Answer: C

QUESTION 6

For a z196, post installation support requires a discussion with the customer about telephone and remote support service.

Which of the following is the best recommendation to the customer?

A. Use analog telephone line for RSF function.

B. Use the Internet via broadband for the RSF function

C. Use a dial-up modem and call IBM support collect to save the customer money.

D. Either an analog telephone line or the internet via broadband can be used for the RSF function

Correct Answer: B

QUESTION 7

A customer has a very large z196 Complex with 8 CEC in a Sysplex. The customer would like IBM to perform a study to help move to the latestA customer has a very large z196 Complex with 8 CEC? in a Sysplex. The customer would like IBM to perform a study to help move to the latest Infiniband 12X Links.

Which of the following is the correct tool to provide this?

A. BWA

B. CF Sizer

C. zTPM

D. zCP3000

Correct Answer: D

QUESTION 8

What is the minimum acceptable process or technique to estimate the capacity requirement for a replacement CPC?

A. zCP3000

B. zTPM

C. LSPR capacity table

D. zPCR

Correct Answer: D

QUESTION 9

Which of the following customer environments would be the fit for the placement of a zBX?

A. Customers with a large Intel environment that are running a mix of old and new servers running a mixture of Windows operating systems releases

B. Customers already running a IBM System Analytics solution on POWER.

C. A customer that is running a legacy application in a multi-tier environment where the database is running on System z and the application servers are running on HP servers running a current Linux release.

D. A customer that is already running an XI50 DataPower solution and wants to relocate their XI50 blades over into a

zBX to take advantages of the Unified Resource Manager Qualities of Service.

Correct Answer: C

QUESTION 10

A prospective zEnterprise customer is fascinated with the addition of the zBX products. The sales specialist is discussing the flexibility of System z family of servers. Which of the following is a key aspect?

A. Binary compatibility between servers

B. Hot pluggable processor and memory boards

C. Consistent CoD features with entire family

D. Ability to interchange features between systems

Correct Answer: A
