**QUESTION 1**

What is a potential result of increasing the level of logging detail on your cluster?

- A. You could affect the performance of the cluster.
- B. You could fill up the limited space in the /tmp directory.
- C. There is no way to do this without recompiling the kernel.
- D. You will create an unsupported condition on the cluster.

Correct Answer: A

---

**QUESTION 2**

A customer is using HP OpenView management software and reports that SNMP data for the Isilon cluster is indecipherable.

How can this be resolved?

- A. Download Isilon MIBs from the cluster or from Isilon Knowledgebase.
- B. Contact software vendor and request an upgrade to SNMP software
- C. Write a program to convert SNMP numbers to a readable format
- D. Extract records with object identifier of 12124 and process with Excel

Correct Answer: A

---

**QUESTION 3**

What are the Isilon recommendations for the internal Infiniband network?

- A. 128.221.252.x, 128.221.253.x, 128.221.254.x
- B. 10.1.1.x, 10.2.2.x, 10.3.3.x
- C. 192.168.1.x, 192.168.2.x, 192.168.3.x
- D. 10.x.x.x, 172.16.x.x, 192.168.x.x

Correct Answer: A

---

**QUESTION 4**

Where does the Log Processor retain a backup of log information for 14 days?

- A. Archive directory
- B. In process directory
- C. Staging directory
- D. Watch directory

Correct Answer: A

---

#### QUESTION 5

The customer has configured a file pool policy on their OneFS 7.0 cluster to place files over 30 days old in the archive tier with a file protection of N+3. The customer attempts to verify the file location and protection setting on a file matching the file pool policy criteria using the `isi get -DD` command. The file is located on the performance tier and has a requested protection setting of N+2:1.

What is the most likely cause of the issue?

- A. The order of the file pool policies
- B. The default policy overrides the file pool policy
- C. The AutoBalance job is paused
- D. The FlexProtect job failed to complete

Correct Answer: A

---

#### QUESTION 6

You are looking at a cluster event which has an Ancestry of 1.215 and a Instance ID of 1.260. What fact about the event can be derived from this information?

- A. 1.260 is a coalesced event
- B. The event is from the Node Status category
- C. Event 1.215 was quieted, which triggered event 1.260
- D. Event 1.215 has been canceled

Correct Answer: A

---

#### QUESTION 7

What resource(s) are available to explain event types by code?

- A. OneFS Event Reference guide and web administration interface help
- B. OneFS Event Reference guide only

- C. main pages and web administration interface help
- D. isi events show command

Correct Answer: A

---

**QUESTION 8**

What type of commands can be run using the command line interface?

- A. Public commands, internal commands and UNIX commands
- B. Masked public commands, windows and non-internal commands
- C. Limited public commands, masked public commands, UNIX commands
- D. Public commands, masked UNIX commands and limited internal commands

Correct Answer: A

---

**QUESTION 9**

A customer has configured Failover on their cluster InfiniBand interfaces. Which InfiniBand interface will the Failover address be bound to?

- A. Neither Int-A nor Int-B
- B. Both Int-A and Int-B
- C. Only Int-A
- D. Only Int-B

Correct Answer: A

---

**QUESTION 10**

On which node that has external network access does the master isi\_celog\_coalescer service run?

- A. The node with the lowest LNN
- B. The first node that receives an event
- C. The node with the highest LNN
- D. Any random node in the cluster

Correct Answer: A

---

**QUESTION 11**

A customer wishes to install a new cluster and needs an explanation of the features SmartConnect will provide. Which explanation best represents its features?

- A. SmartConnect manages loads across the cluster by directing connections to nodes.
- B. SmartConnect moves connections from one node to another to balance loads across the cluster.
- C. SmartConnect connects users with nodes based on identity and authorization.
- D. SmartConnect connects users with nodes based on protocols and protocol versions.

Correct Answer: A

---

**QUESTION 12**

What are methods for uploading logs to Isilon Support?

- A. FTP, HTTP, SMTP, ESRS
- B. HTTPS, FTP, IPCP, ESRS
- C. FTP, HTTP, SNMP, ESRS
- D. HTTP, SNMP, SCP, SupportIQ

Correct Answer: A

---

**QUESTION 13**

What are the five aggregation types available to aggregate network links on Isilon?

- A. LACP, Legacy FEC, EtherChannel (FEC), Active/Passive Failover, Round-Robin Tx
- B. Round-Robin Tx, FEC, Legacy LACP, Active/Passive Failover, Fast Ethernet
- C. 802.3ad, LACP, Legacy FEC, Active/Passive Failover, Round-Robin Tx
- D. EtherChannel (FEC), LACP, Active/Passive Failover, Round-Robin Tx, 802.3ad

Correct Answer: A

---

**QUESTION 14**

How much summarized historical performance data can InsightIQ present?

- A. 1 year's worth
- B. 2 years' worth

C. 6 months\ worth

D. Unlimited

Correct Answer: A

---

**QUESTION 15**

Which job executes customize file pool policies?

A. SmartPools

B. FlexProtect

C. PermissionsRepair

D. AutoBalance

Correct Answer: D
