QUESTION 1

Degradation of hemoglobin in mammal involves:

- A. Formation of bile pigments
- B. Formation of urobilinogen
- C. Formation of biliverdin
- D. Non-oxidative cleavage of phosphirin ring
- E. All are correct

Correct Answer: B

QUESTION 2

In an adequately powered, randomized controlled trial conducted over 3 years, a specific serious side effect (i.e. reduction in leukocytes) with conventional therapy is seen in 0.5% of the study sample. In patients who receive a newly discovered drug, only 0.45% experience the same side effect. Based on these results, the minimum number of patients that would have to receive the new drug for 3 years to statistically demonstrate the prevention of one episode of this side effect in at least one patient is:

- A. 15.
- B. 20.
- C. 150.
- D. 200.
- E. 2000.

Correct Answer: E

QUESTION 3

Pernicious anemia is:

- A. due to dietary deficiency of vitamin B12.
- B. prevented by oral administration of a vitamin B12 supplement.
- C. treated by parenteral administration of folic acid.
- D. treated by parenteral administration of vitamin B12.
- E. caused by dietary iron deficiency.

Correct Answer: D

QUESTION 4

Which of the following statements refers to foscavir?

- A. Pyrophosphate analog
- B. Metabolism in liver is by glucuronidization
- C. Not shown to reduce sudden death or prolong survival.
- D. Inhibition of DNA gyrase results in:
 1. Inhibition of bacterial replication
 2. Inhibition of DNA repair
 3. Inhibition of expression of certain operons
- E. Non-nucleoside reverse transcriptase inhibitor

Correct Answer: A

QUESTION 5

Which of the following statements refers to fansidar?

- A. Effect monitored by PT (prothrombin time).
- B. Embryopathy is due to production of epoxide metabolites. It is especially common when several anticonvulsants are used together.
- C. Is a mixture of trimethoprim and sulfamethoxazole
- D. Minimal GI absorption.
- E. Allergic reactions (cutaneous) can be fatal in 1/20,000 users.

Correct Answer: E

QUESTION 6

Keratin is an example of:

- A. Protein
- B. Peptin
- C. Scleroprotein
- D. Albuminoid
- E. C and D are correct

Correct Answer: C

QUESTION 7

An oral chelating agent used in the treatment of rheumatoid arthritis is:

- A. Allopurinol
- B. Sulphinpyrazone
- C. Indomethacin
- D. Penicillamine
- E. Methotrexate

Correct Answer: D

QUESTION 8

Which of the following is the only polysaccharide NOT synthesized during human metabolism?

- A. Maltase
- B. Sucrose
- C. Glucose
- D. Cellulose
- E. Fructose

Correct Answer: C

QUESTION 9

In an enzymatic reaction, addition of competitive inhibitor leads to:

- A. Increase the rate of reaction
- B. Decrease the rate of reaction
- C. Same rate of reaction
- D. Decrease rate and increase substrate concentration
- E. Decrease both rate and substrate concentration

Correct Answer: C

QUESTION 10

Indication of PTU is:

- A. Glaucoma
- B. Migraine prophylaxis
- C. Thyrotoxicosis - preparation for radioactive iodine therapy
- D. Severe recurrent ventricular tachyarrhythmias
- E. Broad spectrum antibacterial agent

Correct Answer: C

QUESTION 11

Which of the following terms indicates a loss of moisture?

- A. Deliquescence
- B. Efflorescence
- C. Hygroscopicity
- D. Polymorphism
- E. Condensation

Correct Answer: B

QUESTION 12

Which of the following best classify metronidazole?

- A. Antiprotozoa
- B. Antibiotic
- C. Antifungal
- D. Antiviral
- E. Antimicrobial

Correct Answer: A

QUESTION 13

Which of the following is one of the most common side effects of vancomycin?

- A. Ototoxicity

- B. Disulfiram like side effect
- C. Diarrhea
- D. Weight gain
- E. Hallucinations

Correct Answer: A

QUESTION 14

Which of the following enzymes could directly act on codeine?

- A. Glucuronyl transferase
- B. Sulfotransferase
- C. Glutathione transferase
- D. A and B
- E. All of the above

Correct Answer: D

QUESTION 15

Hydrolysis of fixed oils may yields:

- A. Saturated + Unsaturated acids
- B. Glycerol + Fatty acids
- C. Glucose + Fatty acids
- D. Fatty acids + Triglycerides
- E. None of the above

Correct Answer: A
