QUESTION 1

What is the goal of HP Fortify's Software Security Suite?

- A. Find security vulnerabilities in any type of software, fix security flaws in source code before it ships, and protect applications against attacks in production.
- B. Find security vulnerabilities in any type of software, fix security flaws in source code before it ships, and prepare perimeter defense systems with an application context.
- C. Find security vulnerabilities in Web applications, upload findings to ArcSight EMS SIEM, and block the intruder at the gate.
- D. Detect security vulnerabilities during exploitation by using Runtime, upload findings to ArcSight EMS SIEM, and block the intruder at the gate.

Correct Answer: A

QUESTION 2

A prospect calls and says; "Developers are complaining that our security testing occurs too late in the SDLC, disrupting/delaying the releases." What is the appropriate solution?

- A. WebInspect
- B. Fortify Consultant license for SCA + WebInspect
- C. Fortify On Demand (FoD)
- D. Static Code Analyzer (SCA)

Correct Answer: D

QUESTION 3

Which level of coverage does HP Fortify Runtime provide to an application?

- A. security application monitoring, logging, and protection without modification
- B. performance application monitoring, testing, and prevention with minimal modification
- C. security application monitoring through a shim technology to monitor the OSI stack of a server
- D. security application monitoring through a span port on a switching device of a server farm

Correct Answer: A

QUESTION 4

Which statement is correct regarding HP Fortify's place in the market?

- A. Fortify secures 1,000 websites annually.
- B. Fortify has been providing solutions since 2010.
- C. Fortify has more than 1,000 enterprise customers.
- D. Fortify has the most trial downloads annually of any of the primary SAST providers

Correct Answer: C

QUESTION 5

Match the opportunity types with the characteristics of customs.

- use technology as a competitive advantage; mature development shops; largest strategic customers
- slow technology adopters; traditional large "Brick and Mortar" with small development-to-employee ratio, but for whom security is still vital (IP, brand protection)
- decentralized, hard-to-mandate development teams; technology is core business; often early adopters
- testers or vulnerability list generators and small ISVs with no comprehensive SSA needs

Hot Area:

use technology as a competitive advantage; mature development shops; largest strategic customers

Tactical
Service-Intensive
Product-Intensive
Strategic/Full Solution

slow technology adopters; traditional large "Brick and Mortar" with small development-to-employee ratio, but for whom security is still vital (IP, brand protection)
