QUESTION 1

A reservation process allows customers to reserve a flight, hotel room, and rental car as part of a travel itinerary. Which configuration displays a check box to allow users to select travel insurance only if the itinerary includes a flight?

- A. A visible when condition applied to the check box
- B. An action set applied to the check box
- C. A declare expression configured for forward chaining
- D. A validate rule applied to the flow action

Correct Answer: B

QUESTION 2

An application contains two case types, AutoClaim and PropertyClaim. The inheritance path for the application contains three copies of the pyDefault data transform that set property values for two properties, Work Item Urgency and Prefix.

<u>Class</u>	<u>Work Item Urgency</u>	<u>Prefix</u>
InsCorp-ClaimAdm-Work-AutoClaim	20	"A-"
InsCorp-ClaimAdm-Work	[no value]	"C-"
Work-	10	[no value]

If the Call data transforms in superclass option is enabled for each data transform, what are the values of Work Item Urgency and Prefix when a user creates a PropertyClaim case?

- A. Work Item Urgency = 10, Prefix = [no value]
- B. Work Item Urgency = 0, Prefix = "C-"
- C. Work Item Urgency = 10, Prefix = "C-"
- D. Work Item Urgency = 20, Prefix = "A-"

Correct Answer: B

QUESTION 3

A customer calls to apply for a new bank account. The customer service representative (CSR) needs to perform an assignment named Select Account Type. During the discussion, the customer can request written information regarding

different account types.

Select the case lifecycle design that satisfies this requirement.

- A. Add a user view for requesting information to the Select Account Type assignment.
- B. Add an optional action to the stage that contains the Select Account Type assignment.
- C. Add a case-wide optional action.
- D. Add a router to the Select Account Type assignment.

Correct Answer: B

QUESTION 4

A hotel booking application allows customers to change rooms after making a reservation. The status of each room in each hotel is stored on a data page sourced from a database table. Which two configuration options do you use to update the database table when a customer changes rooms? (Choose two.)

- A. A When rule to trigger the database update
- B. An editable data page containing the room information
- C. A savable data page containing the room information
- D. A data transform to copy updates to the data page

Correct Answer: BD

QUESTION 5

You are creating a case type to process job applications for a large corporation. Job applications for security positions require a physical assessment in addition to the standard criminal background check. The physical assessment can occur before or after the background check.

How do you configure a case type to achieve the required behavior?

- A. Create a process for the physical assessment that is followed by a process for the background check.
- B. Create a process for the physical assessment that is parallel to the background check process.
- C. Create a process on one stage for the background check and a process on another stage for the physical assessment.
- D. Create a process for the background check and an optional process for the physical assessment.

Correct Answer: A

QUESTION 6

DRAG DROP

Select each task on the left and drag it to the corresponding Application Development Studio on the right, where the task can be completed.

Select and Place:

<u>Task</u>	<u>Task</u>	<u>Application Development Studio</u>
Review real-time UI designs with stakeholders.		App Studio
Monitor the cloud-based production system at run-time.		Dev Studio
Configure application security, versioning, and source control.		Admin Studio
Globally configure the setting for an Artificial Intelligence model.		Prediction Studio

Correct Answer:

<u>Task</u>	<u>Task</u>	<u>Application Development Studio</u>
	Review real-time UI designs with stakeholders.	App Studio
	Configure application security, versioning, and source control.	Dev Studio
	Monitor the cloud-based production system at run-time.	Admin Studio
	Globally configure the setting for an Artificial Intelligence model.	Prediction Studio

QUESTION 7

DRAG DROP

Select each description on the left and drag it to the correct property mode on the right.

Select and Place:

<u>Description</u>	<u>Description</u>	<u>Property Mode</u>
A numerically ordered list of customer accounts where the accounts relate to one another.		Single Value
An unordered list of the customer home, business and mailing addresses where each address contains the street, city, state, and postal code.		Page Group 
The date of purchase on an expense report.		Page List

Correct Answer:

<u>Description</u>	<u>Description</u>	<u>Property Mode</u>
	The date of purchase on an expense report.	Single Value
	An unordered list of the customer home, business and mailing addresses where each address contains the street, city, state, and postal code.	Page Group 
	A numerically ordered list of customer accounts where the accounts relate to one another.	Page List

QUESTION 8

A customer wants to copy the contents of a previous order to their current order. What rule type do you use to copy the order contents?

- A. Data page
- B. Declare expression
- C. Data transform
- D. Function

Correct Answer: C

QUESTION 9

In an application for configuring hardware equipment for new employees, the manager chooses a laptop model from a drop-down list. The list of available laptop models is maintained in an external system and may change over time. Which of the following do you use as the data source for this drop-down list?

- A. A data page
- B. A local list
- C. A data table
- D. A data transform

Correct Answer: A

QUESTION 10

How do you route an assignment so that any available member of the department can perform the task?

- A. Route the assignment to the admin user ID.
- B. Route the assignment to a work queue.
- C. Route the assignment separately to all members.
- D. Route the assignment to a work list.

Correct Answer: B

QUESTION 11

You are developing a case type that processes scholarship applications. Scholarship applications advance based on the standardized test scores of the applicants. A decision shape directs the process flow. You want to test whether the process flows correctly, but you have not fully configured the user interface so that applicants can enter their standardized test scores.

How do you test that the process flows correctly based on the decision?

- A. Use the Run Rule window to create a unit test to evaluate the flow rule.
- B. Use a declare expression to set a value for the standardized test score field.
- C. Use Live UI to see how the case processes and if an error occurs.
- D. Use the Clipboard tool to set a value for the standardized test score field.

Correct Answer: B

QUESTION 12

A data page holds product information. The data page's Reload if older Than filed is set to 15 minutes.

The data page is created at 06:12.

At 06:20 the user requests product information.

At 06:42 the user requests product information.

When is the data reloaded?

- A. 06:35
- B. 06:20
- C. 06:42
- D. 06:27

Correct Answer: A

QUESTION 13

You have created a new report that contains a list of employees, hire dates, and managers. You have been asked to display each manager in a row. Beneath each manager row, you must list the manager's employees and their hire dates. How do you support this request?

- A. Summarize the manager column
- B. Sort the manager column
- C. Group the manager column
- D. Filter the manager column

Correct Answer: C

QUESTION 14

HOTSPOT

An online retailer creates a case type that processes and manages customer orders. The checkout process has four steps:

1.
Review Order: The customer reviews the items in order of add-to-cart selection and can adjust the quantity of each item and delete items to calculate and display the order total.
2.
Select Shipping Option: The customer selects a shipping option to determine and display the shipping charge for their order.
3.
Enter Delivery Address: The customer enters their delivery address to determine the sales tax, if applicable, and the application displays the calculated sales tax.
4.
Enter Payment Information: The customer selects a payment option and confirms the grand total of the order.

For each calculation, identify the appropriate chaining option to maximize the performance.

Hot Area:

Answer Area

Line total (item price * quantity)	<input type="text" value="Forward chaining"/> <input type="text" value="Backward chaining"/>
Order total (sum of line totals)	<input type="text" value="Forward chaining"/> <input type="text" value="Backward chaining"/>
Shipping charge (calculated from a decision rule)	<input type="text" value="Forward chaining"/> <input type="text" value="Backward chaining"/>
Sales tax (order total * tax rate)	<input type="text" value="Forward chaining"/> <input type="text" value="Backward chaining"/>
Grand total (order total + sales tax + shipping charge)	<input type="text" value="Forward chaining"/> <input type="text" value="Backward chaining"/>

Correct Answer:

Answer Area

Line total (item price * quantity)	<input type="checkbox"/> Forward chaining <input type="checkbox"/> Backward chaining
Order total (sum of line totals)	<input type="checkbox"/> Forward chaining <input checked="" type="checkbox"/> Backward chaining
Shipping charge (calculated from a decision rule)	<input type="checkbox"/> Forward chaining <input checked="" type="checkbox"/> Backward chaining
Sales tax (order total * tax rate)	<input type="checkbox"/> Forward chaining <input checked="" type="checkbox"/> Backward chaining
Grand total (order total + sales tax + shipping charge)	<input type="checkbox"/> Forward chaining <input checked="" type="checkbox"/> Backward chaining

QUESTION 15

A customer refund case type requires that an auditor receives an email notification if the refund is greater than twice the price of the item. Which recipient role do you select to configure this requirement?

- A. Configure the email to go to a work queue.
- B. Configure the email to go to a customer.
- C. Configure the email to go to an interested person.
- D. Configure the email to go to an owner.

Correct Answer: A
