QUESTION 1

A Symantec Enterprise Vault 11.x for Exchange (EV) administrator activated Auditing at the Directory level. During this process, the administrator created the audit database and can log on the SQL server without errors. The administrator checks the content of the audit database and notices that nothing is being audited.

How should the administrator resolve this issue?

A. after enabling auditing on the EV Directory, restart the EV Admin Service level

B. enable Auditing in the Exchange Server properties in the VAC and select the auditing options

C. enable Auditing in the EV Server properties in the VAC and select the auditing options

D. enable Auditing in the EV Site properties in the VAC and select the auditing options

Correct Answer: C

QUESTION 2

An organization has added a custom Outlook form containing a new message class.

Which steps must the administrator perform to ensure the new form is archived from users\\' mailboxes?

A. add the form to the Directory > Properties and then include it on the appropriate Mailbox policies

B. add the form to the Directory > Properties and then include it on the appropriate Desktop policies

C. add the form to the Site > Properties and then include it on the appropriate Mailbox policies

D. add the form to the Site > Properties and then include it on the appropriate Desktop policies

Correct Answer: A
